STEAM Meets Story Gloria D. Campbell-Whatley, Diane Rodriguez, Jugnu Agrawal, 2021 This innovative STEAM guide will help general and special education teachers to increase effective instruction with adolescents grades 5-10. The authors show teachers how to link STEM concepts with popular fiction and film selections as a catalyst to launch student interactions, discussions, projects, and investigations. This approach will promote problem solving and reasoning skills by initiating the scientific process rather than simply presenting established facts. The book includes a wealth of lesson plans that connect abstract STEM ideas to realistic experiences that students encounter. Sample lessons call on students to produce drawings and models that move STEM to STEAM. Grounded in popular film and the 31 books most read by adolescent students, the text includes teaching strategies found to be effective with traditionally underserved students and those with disabilities. Book Features: Standards-based STEM lessons are interrelated and interwoven with writing, reading, speaking, and other skills. Practical ideas and hands-on activities for engaging adolescents in both traditional and virtual environments. Guidance for working with diverse populations such as students with different abilities, culturally and linguistically diverse students, translingual students, and transnational students. Includes full lessons, templates, and handouts. **Multidisciplinary**

Research in Arts, Science & Commerce (Volume-21) Chief Editor- Biplab Auddya, Editor- Dr. Jay Prakash Rajak, Dr. Akheel Mohammed, Dr. (Mrs) Shirley Bless Agwuocha, Andriya Mallick, Dr. Sandip R. Kelode, Chalamalasetti Vana Venkata Madhur, 2025-03-27 Library Services to Homeschoolers Christina Giovannelli Caputo, 2022-02-15 Library Services to Homeschoolers: A Guide will help librarians understand and serve their homeschooling community. Chapter 1 covers the early history of homeschooling and how compulsory education changed how our children were schooled. Chapter 2 explores the homeschool revolution when parents began to take back the education of their children. Chapter 3 looks at homeschooling today and the way laws, advocacy groups, and COVID-19 all contributed to a surge in homeschooling families. Chapter 4 examines the various methods parents use to educate their children at home. From at-home classrooms to travelschooling, parents are creative in teaching their children. Chapter 5 is the how-to for libraries. Learn how public libraries can help parents and caregivers teach their children by providing a place, materials, programs, and more. Chapter 6 explores various ways of reaching the homeschooling community we want to serve. Chapter 7 looks at the growing diversity in home education. Finally, Chapter 8 peers into the future of homeschooling, helping us prepare for the needs of future homeschooling families.

Longshot David Heath, 2022-01-18 This is the incredible story of the scientists who created a coronavirus vaccine in record time. In *Longshot*, investigative journalist David Heath takes readers inside the small group of scientists whose groundbreaking work was once largely dismissed but whose feat will now eclipse the importance of Jonas Salk's polio vaccine in medical history. With never-before-reported details, Heath reveals how these scientists overcame countless obstacles to give the world an unprecedented head start when we needed a COVID-19 vaccine. The story really begins in the 1990s with a

series of discoveries that were timed perfectly to prepare us for the worst pandemic since 1918 Readers will meet Katalin Karik who made it possible to use messenger RNA in vaccines but struggled for years just to hang on to her job There s also Derrick Rossi who leveraged Karik s work to found Moderna but was eventually expelled from his company And then there s Barney Graham at the National Institutes of Health who had a career long obsession with solving the riddle of why two toddlers died in a vaccine trial in 1966 a tragedy that ultimately led to a critical breakthrough in vaccine science With both foresight and luck Graham and these other crucial scientists set the course for a coronavirus vaccine years before COVID 19 emerged in Wuhan China The author draws on hundreds of hours of interviews with key players to tell the definitive story about how the race to create the vaccine sparked a revolution in medical science The New York Times Index ,2009
