1996 Apple adopted an outsourcing strategy By 2003 it was lured to China by the promise of affordable ubiquitous labour As the iPod and iPhone transformed Apple's fortunes their sophisticated production played a seminal role in financing training supervising and supplying Chinese manufacturers skills Beijing is now weaponizing against the West Investigative journalist Patrick McGee draws on 200 interviews with former Apple executives and engineers to reveal how Cupertino's choice to anchor its supply chain in China has increasingly made it vulnerable to the regime's whims Both an insider's historical account and a cautionary tale Apple in China is the first history of Apple to go beyond the biographies of its top executives and set the iPhone's global domination within an increasingly fraught geopolitical context The Brutal Truth About Asian Branding Joseph Baladi, 2011-02-16 This is one of the most thoughtful books on branding I've come across Most such books are either quickly crafted how-to books or academic tomes overburdened with references This book is thoughtful because it raises questions which deal with the why rather than just how of branding The reference to brutal truth as the truth which will set us free to examine ourselves without self-illusions is liberating The notion that Asia has many good but no great brands is also not a put-down but a clarion call for Asian CEOs to rise to the challenge and create lasting meaningful committed brands Ho Kwon Ping Chairman CEO Banyan Tree and Board of Trustees SMU 2010 recipient of the Lifetime Achievement Award by the American Creativity Association A cold shower to wake people up Joe Baladi's Brand Blueprint is a great tool for anyone involved in Sovereign Relationship Marketing or brand building anywhere Timothy Love Vice Chairman Chief Executive Officer Omnicom APIMA There are many books about branding but few address Asian companies directly Joe Baladi has been one of the loudest voices to advocate strong branding practices to Asian companies determined to outperform their competitors The Brutal Truth About Asian Branding is a timely book that all Asian CEOs with global aspirations should read Richard Eu Group CEO Eu Yan Sang International The Brutal Truth About Asian Branding is the first book that connects branding frameworks to the realities of operating in Asia It offers a very straightforward perspective on the challenges Asian CEOs face as they build their businesses and their brands and perhaps the most compelling part of the book is the passionate plea for how Asian CEOs should be thinking different about branding In true Baladi style it is straight from the heart Maarten Kelder Managing Partner Asia Monitor Group A very interesting and valuable perspective on Asian branding one that decision makers in the region should read and embrace Well done Joe Ron Sim Founder it is thoughtful and thought-provoking putting people and brands center stage with practical insights borne of his breadth of personal experience at the frontline Chris D Beaumont Professor Tokyo University Global Centre of Excellence Director North Asia Results International The brutal truth is that Joe Baladi is right Asian CEOs must learn the brand skills used so successfully in the rest of the world It will take a big change in mentality but the rewards will be vast This book is a great start to that revolution Michael Newman Author 22 Irrefutable Laws of Advertising *Management Information Systems* R.
