The Dark Social Toija Cinque, Alexia Maddox, Robert W. Gehl, 2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension

with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

Trumping the Media Michael Mario Albrecht, 2022-08-11 The ascendancy of Donald J Trump to the office of president was not a fluke Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains A right wing ecosystem had developed that included cable television talk radio social media and imageboards The political rise of Trump occurred alongside a mainstreaming of far right politics and a skepticism towards long established institutions Trump was able to exploit the shifts in politics and the media environment for his political gain He deployed a post truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy This book explores the shifts in the media environment that made the political career of Donald Trump possible The author shows the ways that Trump was able to inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt right and forwarding the project of democracy

Feminist Connections Katherine Fredlund, Kerri Hauman, Jessica Ouellette, 2020-09-29 Highlights feminist rhetorical practices that disrupt and surpass boundaries of time and space In 1917 Alice Paul and other suffragists famously picketed in front of the White House while holding banners with short pithy sayings such as Mr President How long must women wait for Liberty Their juxtaposition of this short phrase with the image of the White House a symbol of liberty and justice relies on the same rhetorical tactics as memes a genre contemporary feminists use frequently to make arguments about reproductive rights Black Lives Matter sex positivity and more Many such connections between feminists of different spaces places and eras have yet to be considered let alone understood Feminist Connections Rhetoric and Activism across Time Space and Place reconsiders feminist rhetorical strategies as linked intergenerational and surprisingly consistent despite the emergence of new forms of media and intersectional considerations Contributors to this volume highlight continuities in feminist rhetorical practices that are often invisible to scholars obscured by time new media and wildly different cultural political and social contexts Thus this collection takes a nonchronological approach to the study of feminist rhetoric grouping chapters by rhetorical practice rather than time content or choice of media By connecting historical contemporary and future trajectories this collection develops three feminist rhetorical frameworks revisionary rhetorics circulatory rhetorics and response rhetorics A theorization of these frameworks explains how feminist rhetorical practices past and present rely on similar but diverse methods to create change and fight oppression

Identifying these strategies not only helps us rethink feminist rhetoric from an academic perspective but also allows us to enact feminist activist rhetorics beyond the academy during a time in which feminist scholarship cannot afford to remain behind its hallowed yet insular walls Digital Geographies—Theory, Space, and Communities Abdul Shaban, 2025-01-02

This machine generated volume with chapter introductions by the human expert showcases how digital technologies are having deep transformative impacts on geographies and temporalities of social political economic and personal lives They are altering perceptions and physicality of space and time They are giving birth to digital communities and societies where distance remains of little significance Virtual spaces and ICT have disrupted state sovereignties often liquidating their physical national boundaries The rise of the digital economy shows that new important raw materials for the future are information rather than coal oil and minerals Digitalisation is also leading to several contradictory processes of democratisation rising welfare of the citizens as well as surveillance peripheralisation and exclusion States are taking pride in digitalising their services to the citizens with massive consequences on the welfare of those facing digital divides As a departure to and in addition to the usual understanding of digitalisation society and space the present volume engages with some of the critical questions while reviewing existing literature What are the space relations of digital technologies What are the forms and consequences of changing physical space human relations to digital space human relations How is the sense of time and space changing with pervasive performatives of in real time and virtual realities or with perceptible or portable spaces In what ways does digitalisation relate to knowledge and power Why and how must we theorise the digitalisation led transformative processes of sociality materiality and their spatialities The book will be useful for teachers researchers and students engaged in this new area of digital geography especially in social science and its subfields of sociology economics political sciences anthropology psychology development studies policy studies social work urban studies and planning For the full picture the volume can be read in combination with its companion volume on Digital Geographies Urbanisation Economy and Modelling *Youth Entrepreneurship* Chris Ehiobuche, Chizoba Madueke, 2017-02-10

The challenges and opportunities facing the Nigerian youths demand rethinking of new ways of doing things Youth unemployment and underemployment are at a record high More than ever the Nigerian youths are in dire need of finding other avenues to explore in pursuit of life endeavors Youth employment underemployment and unemployment are serious concerns for our society civilization and the nation Ehiobuche and Madueke took a different approach to discussing and presenting a practical approach to youth entrepreneurship from the notion of a shared responsibility for the change of mindset from falling into the victims theory dimensions to intelligent ventures and resilience Their model presents insight on how a paradigm shift among the youths and the society in general from job search to business development may well lead to entrepreneurs and self productive citizens The authors hope to inspire inform and encourage today's youths to become tomorrow's entrepreneurs leaders and good citizens Making the transition from seeking employment unemployment or

underemployment to self employment entrepreneurship is the primary purpose of this book The topics include the following Conquering personal and cultural roadblocks to entrepreneurship Shifting mental and physical focus from employee to employer Avoiding common pitfalls in starting and running a sustainable small business Making the best out of being a youth The authors urge the Nigerian youths to avoid falling into a victim mentality and start their paradigm shift into the mindsets of entrepreneurs

Online Othering Karen Lumsden, Emily Harmer, 2019-04-23 This book explores the discrimination encountered and propagated by individuals in online environments The editors develop the concept of online othering as a tool through which to analyse and make sense of the myriad toxic and harmful behaviours which are being created through or perpetuated via the use of communication technologies such as the internet social media and the internet of things The book problematises the dichotomy assumed between real and virtual spaces by exploring the construction of online abuse victims experiences resistance to online othering and the policing of interpersonal cyber crime The relationship between various socio political institutions and experiences of online hate speech are also explored Online Othering explores the extent to which forms of information technologies facilitate exacerbate and or promote the enactment of traditional offline offences such as domestic abuse and stalking It focuses on the construction and perpetration of online abuse through examples such as the far right the alt right and Men s Rights Activists It also explores experiences of and resistance to online abuse via examples such as victims experiences of revenge porn online abuse and misogyny transphobia disability hate crime and the ways in which online othering is intersectional Finally the collection addresses the role of the police and other agencies in terms of their interventions and the regulation and governance of virtual space s Contributions to the volume come from fields including sociology communication and media studies psychology criminology political studies information science and gender studies Online Othering is one of the very first collections to explore a multitude of abuses and their relationship to information and communication technology

Understanding Movement Parties Through their Communication Dan Mercea, Lorenzo Mosca, 2023-03-21 In many countries movement parties have swayed large tracts of the electorate Contributions to this edited book reflect on the place of movement parties in democratic politics through analyses of their communication Reviewing evidence from several countries including cases from Europe Australia and India where movement parties have gained ground in politics this book illuminates the important role that communication has played in their rise as well as the issues surrounding it Movement parties have expressed greater sensitivity to neglected issues a commitment to renewing links with marginalized social groups through more direct chiefly online communication with them as well as an ambition to overhaul both the party organization and the political system In doing so they have signalled a desire to disrupt and reimagine politics Yet the critical examination of their efforts and of the communication environment in which they operate against questions regarding the quality of democracy throws into relief a mismatch between a participation oriented rhetoric and concrete democratic practices Accordingly contributions draw attention to disconnections

between a professed need for more immediate and greater participation in movement party organization and policymaking on the one hand their organizational practices and the communication of parties leaders and supporters on the other This book was originally published as a special issue of the journal Information Communication Society *Gaming Democracy* Adrienne L. Massanari,2024-10-15 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley s emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism *The Routledge Companion to Narrative Theory* Paul Dawson,Maria Mäkelä,2022-07-18 The *Routledge Companion to Narrative Theory* brings together top scholars in the field to explore the significance of narrative to pressing social cultural and theoretical issues How does narrative both inform and limit the way we think today From conspiracy theories and social media movements to racial politics and climate change future scenarios the reach is broad This volume is distinctive for addressing the complicated relations between the interdisciplinary narrative turn in the academy and the contemporary boom of instrumental storytelling in the public sphere The scholars collected here explore new theories of causality experientiality and fictionality challenge normative modes of storytelling and offer polemical accounts of narrative fiction nonfiction and video games Drawing upon the latest research in areas from cognitive sciences to complexity theory the volume provides an accessible entry point for those new to the myriad applications of narrative theory and a point of departure for new scholarship
