Today's Guide to Educational Policy Joel Spring, 2021-04-11 In his latest book Joel Spring covers major political economic and social issues affecting US and global education policy today Crafted to evoke classroom discussion this book explores contemporary issues such as the pandemic institutional racism religious controversies nationalism and immigration increased reliance on online instruction climate change economics of education and the deep state in education Giving students the opportunity to engage in critical thinking and explore the growing sense that US and global education is in distress and in need of fundamental transformation this book forces readers to examine their own values and how they might apply this thinking to their own education policy and practice

House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886 Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2014-02-14 There is at present around 46 billion of outstanding student loans on the Government's books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million

borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35 40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book

National Audit Office - Department for Business, Innovation and Skills: Student Loan Repayments - HC 818 Great Britain: National Audit Office,2013-11-28

Until the Department for Business Innovation and Skills BIS has a robust strategy for maximizing the collection performance of student loans and improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The number of borrowers due to repay is projected to increase from 3 million in 2012 13 to 6 5 million by 2042 The loan book is therefore becoming a substantial public asset BIS and its collection partners HM Revenue Customs and the Student Loans Company SLC work together in a joined up way In 2012 13 they collected 1 4 billion in student loan repayments at a cost of 27m BIS needs to make better use of data to support its collection strategy and improve its understanding of where it could invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried out little analysis to establish how many may be working overseas or the level of repayments that may be missed

The Neoliberal Agenda and the Student Debt Crisis in U.S. Higher Education Nicholas Hartlep,Lucille Eckrich,Brandon Hensley,2017-05-18 Capturing the voices of Americans living with student debt in the United States this collection critiques the neoliberal interest driven debt based system of U S higher education and offers alternatives to neoliberal capitalism and the corporatized university Grounded in an understanding of the historical and political economic context this book offers auto ethnographic experiences of living in debt and analyzes alternatives to the current system Chapter authors address real questions such as Do collegians overestimate the economic value of going to college and How does the monetary system that student loans are part of operate Pinpointing how developments in the political economy are accountable for students university experiences this book provides an authoritative contribution to research in the fields of educational foundations and higher education policy and finance
