Alexander, 2008-09-08 What binds societies together and how can these social orders be structured in a fair way? Jeffrey C. Alexander's masterful work *The Civil Sphere* addresses this central paradox of modern life. Feelings for others, the solidarity that is ignored or underplayed by theories of power or self-interest, are at the heart of this novel inquiry into the meeting place between normative theories of what we think we should do and empirical studies of who we actually are. Solidarity, Alexander demonstrates, creates inclusive and exclusive social structures and shows how they can be repaired. It is not perfect, it is not absolute, and the horrors which occur in its lapses have been seen all too frequently in the forms of discrimination, genocide, and war. Despite its worldly flaws and contradictions, however, solidarity and the project of civil society remain our best hope, the antidote to every divisive institution, every unfair distribution, every abusive and dominating hierarchy. This grand, sweeping statement and rigorous empirical investigation is a major contribution to our thinking about the real but ideal world in which we all reside. *The Black Diamond*, 1929 **Cambridge Business English Dictionary** Roz Combley, 2011-11-10 The most up-to-date business English dictionary created specially for learners of English. *Reinventing Capitalism in the Age of Big Data* Viktor Mayer-Schönberger, Thomas H. Davenport, 2018-02-27 From the New York Times bestselling author of *Big Data*, a prediction for how data will revolutionize the market economy and make cash banks and big companies obsolete. In modern history, the story of capitalism has been a story of firms and financiers. That's all going to change thanks to the Big Data revolution. As Viktor Mayer-Schönberger, bestselling author of *Big Data*, and Thomas H. Davenport, who writes for *The Economist*, show, data is replacing money as the driver of market behavior. Big finance and big companies will be replaced by small groups and individual actors who make markets instead of making things. Think Uber instead of Ford or Airbnb instead of Hyatt. This is the dawn of the era of data capitalism. Will it be an age of prosperity or of calamity? This book provides the indispensable roadmap for securing a better future. **Billboard**, 1953-05-30 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand.
