The Costs of Connection Nick Couldry, Ulises A. Mejias, 2019-08-20 Just about any social need is now met with an opportunity to connect through digital means But this convenience is not free it is purchased with vast amounts of personal data transferred through shadowy backchannels to corporations using it to generate profit The Costs of Connection uncovers this process this data colonialism and its designs for controlling our lives our ways of knowing our means of production our political participation Colonialism might seem like a thing of the past but this book shows that the historic appropriation of land bodies and natural resources is mirrored today in this new era of pervasive datafication Apps platforms and smart objects capture and translate our lives into data and then extract information that is fed into capitalist enterprises and sold back to us The authors argue that this development foreshadows the creation of a new social order emerging globally and it must be challenged Confronting the alarming degree of surveillance already tolerated they offer a stirring call to decolonize the internet and emancipate our desire for connection

Young China Zak Dychtwald, 2018-02-13 The Wall Street Journal Engrossing Dychtwald writes with an infectious energy The Washington Post Enlightening we learn that Chinese millennials unlike their jaded American counterparts are still dreamers and strivers and have faith that they can achieve their dreams Christian Science Monitor Fascinating a remarkably revealing portrait of China's youngest generations Randall Stross author of Bulls in the China Shop and Other Sino American Business Encounters A rarity among books about China Young China is a fun read Elizabeth Economy C V Starr Senior Fellow and Director for Asia Studies at the Council on Foreign Relations An engaging read for anyone looking for an introduction to contemporary Chinese culture and society The author in his twenties who is fluent in Chinese examines the future of China through the lens of the Jiu Ling Hou the generation born after 1990 A close up look at the Chinese generation born after 1990 exploring through personal encounters how young Chinese feel about everything from money and sex to their government the West and China's shifting role in the world not to mention their love affair with food karaoke and travel Set primarily in the Eastern 2nd tier city of Suzhou and the budding Western metropolis of Chengdu the book charts the touchstone issues this

young generation faces From single child pressure to test taking madness and the frenzy to buy an apartment as a prerequisite to marriage from one night stands to an evolving understanding of family Young China offers a fascinating portrait of the generation who will define what it means to be Chinese in the modern era Zak Dychtwald was twenty when he first landed in China He spent years deeply immersed in the culture learning the language and hanging out with his peers in apartment shares and hostels on long train rides and over endless restaurant meals

2030 Mauro F. Guillén, 2025-09-23 AN INTERNATIONAL BESTSELLER Wall Street Journal Bestseller A Porchlight Book Bestseller Financial Times Best Books of 2020 Yahoo Finance Favorite Business Books of 2020 JP Morgan NextList 2021 selection Bold provocative illuminates why we re having fewer babies the middle class is stagnating unemployment is shifting and new powers are rising ADAM GRANT The world is changing drastically before our eyes will you be prepared for what comes next A groundbreaking analysis from one of the world s foremost experts on global trends including analysis on how COVID 19 will amplify and accelerate each of these changes Once upon a time the world was neatly divided into prosperous and backward economies Babies were plentiful workers outnumbered retirees and people aspiring towards the middle class yearned to own homes and cars Companies didn t need to see any further than Europe and the United States to do well Printed money was legal tender for all debts public and private We grew up learning how to play the game and we expected the rules to remain the same as we took our first job started a family saw our children grow up and went into retirement with our finances secure That world and those rules are over By 2030 a new reality will take hold and before you know it There will be more grandparents than grandchildren The middle class in Asia and Sub Saharan Africa will outnumber the US and Europe combined The global economy will be driven by the non Western consumer for the first time in modern history There will be more global wealth owned by women than men There will be more robots than workers There will be more computers than human brains There will be more currencies than countries All these trends currently underway will converge in the year 2030 and change everything you know about culture the economy and the world According to Mauro F Guillen the only

way to truly understand the global transformations underway and their impacts is to think laterally That is using peripheral vision or approaching problems creatively and from unorthodox points of view Rather than focusing on a single trend climate change or the rise of illiberal regimes for example Guillen encourages us to consider the dynamic inter play between a range of forces that will converge on a single tipping point 2030 that will be for better or worse the point of no return 2030 is both a remarkable guide to the coming changes and an exercise in the power of lateral thinking thereby revolutionizing the way you think about cataclysmic change and its consequences **Papers in ITJEMAST 11(11) 2020** , International
