

The History of Gaming

Gaming

During the early 1950s, very little was going on with the video game world. The first video games were simple games made up of a single play button. They were not popular and were only available in research labs and universities. However, things changed in the 1970s with the arrival of arcade games such as Pong. The success of these games led people to invent a home console and computers. Over time, gaming has become increasingly popular.

Pong

Pong

The first home console was the Magnavox Odyssey, which was released in 1972. People didn't want to buy it but it did set the stage for later consoles such as the Atari 2600, which was released in 1977. It was the first popular console that allowed users to play lots of different games. It was a huge success and it helped to lay the foundation for the modern video game industry.
