anxious assessor to a fair and fun facilitator of learning. It shares his personal professional journey detailing his evolution as an educator while simultaneously offering strategies for readers to implement Peter's unique teaching philosophy to increase opportunities for play, creative expression and personalization in both the indoor and outdoor classroom. In his own classroom, Peter brought learning outside by creating a nature kindergarten program that emphasizes community partnerships, service learning and meaningful and memorable experiences in the outdoors. Teaching Off Trail aims to inspire educators, administrators and parents across all levels to turn their outrage for today's educational system into outreach that promotes passionate and purposeful problem solving. He incorporates techniques often seen in private educational settings like Reggio and Montessori student centered, self directed, experiential approaches to learning and shows how they work within a public school system.

Starting Strong Katrin Blamey, Katherine A. Beauchat, 2023-10-10. Starting Strong: Evidence Based Early Literacy Practices shows teachers how to use four proven instructional approaches: standards based, evidenced based, assessment based and student based to improve their teaching practice in all areas of early literacy. Authors Katrin Blamey and Katherine Beauchat draw on their years of experience and early literacy expertise to guide you in figuring out what to teach and how to find the most instructionally sound method to teach it. They help you determine the instructional needs of your classroom and take full advantage of what you know about your students so you can engage them in learning. With chapters on oral language, vocabulary, phonological awareness, word recognition, comprehension and writing skills, this comprehensive book explains each skill and provides research based strategies for targeting each area. Supported by evidence based research and aligned to key tenets of the Common Core, the book also includes classroom tested activities and children's literature suggestions for each area of literacy. Starting Strong is an essential resource that any early literacy teacher or coach using a balanced literacy approach can use to build a solid foundation for their students.

Lives on the Edge Valerie Polakow, 1994-05-28. Lives on the Edge offers a penetrating, deeply disturbing look into the other America inhabited by single mothers and their children. Its powerful and moving portraits force us to confront the poverty, destitution and struggle for survival that await single mothers in one of the richest nations in the world. One in five children and one in two single mothers live in destitution today. The feminization and infantilization of poverty have made the United States one of the most dangerous democracies for poor mothers and their children to inhabit. Why then, Valerie Polakow asks, is poverty seen as a private affair, their problem, not ours, and how can public policy fail to take responsibility for the consequences of our politics of distribution? Searching for an answer, Polakow considers the historical and ideological sources for society's attitudes toward single mothers and their children and shows how our dominant images of normal families and motherhood have shaped our perceptions, practices and public policies. Polakow's account traces the historical legacy of discrimination against the dangerous classes and the undeserving poor, a legacy that culminates in the current public hostility towards welfare recipients. Polakow moves beyond the cold voice of statistics to take us into the daily lives of single mothers and their

children The stories of young black teenage mothers of white single mothers of homeless mothers are presented with clarity and quiet power In a detailed look inside the classroom worlds of their children Polakow explores what life is like if one is very young and poor and consigned to otherness in the landscape of school School is a place that matters it is also a place where children are defined as at risk or at promise Polakow s astute analysis of poor children s pedagogy provides a critical challenge to educators Written by an educator and committed child advocate Lives on the Edge draws on social historical feminist and public policy perspectives to develop an informed wide ranging critique of American educational and social policy Polakow s recommendations in the areas of social policy and education point to useful cross cultural models as well as successful small scale programs in place in the United States Yet Polakow constantly reminds us that small facts speak to large issues By providing us with a living sense of the other America she helps us to realize that their America is no other than ours Stark penetrating and unflinching this work challenges our cherished myths of justice and democracy
