Profitable Posts Social Media Marketing Plan to Build an Online Business to Profit Up to Six Figures

,2024-01-22 INTRODUCTION There comes a time when the elastic snaps When you push yourself to breaking point and everything crashes down My breaking point came on a gloomy Monday morning commute in 2015 Sitting in my car waiting for the lights to change I looked at two guys in their cars on either side of me They looked as miserable as I felt At that moment I burst into tears What the fuck was I doing with my life I was unhappy in my personal life and hated my job I couldn't see a way out I was too invested in my career too old to start again Looking back I didn't know jack shit about building a fitness business Corporate marketing is one thing Doing everything from scratch alone in a different industry is another I didn't have a creative agency or a multimillion pound budget All I had was a Personal Trainer certificate and the ironparadisefitness.com domain name Nevertheless I started building my online empire Or as I now refer to it pissing in the wind for two years I would write lousy articles post selfies and wonder why clients weren't beating down my virtual door Desperate to carve a way out of corporate life I vowed not to quit My business was my obsession Going out meeting friends and taking a break were a rarity I thought it was the only way to be successful I became a hermit A recluse Like the creepy guy kids fear in horror movies That's Old Man Mitchell from No 29 He never leaves the house Some say he only goes outside to dispose of the dead bodies I wasn't that bad but my social life went on ice I studied nutrition and learned the intricacies of exercise mechanics I read books and invested in courses on social media copywriting and web design Iron Paradise Fitness had consumed my entire life and I loved it It was the fire in my belly I'd been missing The passion I needed Although it did make for awkward conversations on Tinder dates What do you like to do in your spare time The innocent question would come Well I'm building my own business right now so that's my main focus Ah cool But what do you like to do for fun Work on my business Yeah but what about when you're not doing that I'm either working on my business thinking about working on my business or eating Oh

Transforming an Idea Into a Business with Design Thinking Muhammad Mashhood Alam,2018-10-30 We are living in fascinating times when the power of technology is not just reshaping but is transforming the globe in unprecedented ways These include the ability to connect with anyone across the globe in an instant using a tiny device in the palm of our hands to the availability of self learning systems to take over not only the most mundane of tasks but the most sophisticated tasks previously thought to be performable only by superior human faculties Regardless of whether you consider this progress to be beneficial to society or harmful these technological

advancements are here to stay On one hand these current transformational technological advancements threaten this stability of society On the other hand they present an opportunity for all of us to awaken our inner entrepreneurs This book makes the transition from an employee to an entrepreneur smooth for the masses Many of us have ideas to improve this world in some way and even feel strongly about some of those ideas at a deeper level However we find ourselves perplexed on two levels 1 Where to start when building an idea into a business 2 What are the various dimensions and activities needed to launch an idea into a business This book will introduce you to a structured framework called Transform3 1 to transform your idea into a business by following simple and specific steps spread across four stages The framework is grounded in the belief that all solutions solve human problems using technology or otherwise The first stage will help you understand the problem facing your target user by building empathy Once you understand the problem comes the stage of devising a solution in an iterative manner through prototyping the new concept and validating with the user Most start ups fail not because they didn't find the right problem to solve for the target user or that their solution lacked technological prowess but because they could not figure out a sustainable business model Third stage will focus on crafting a business model And the final stage introduces you to a unique approach of managing risk associated with your venture This unique framework leverages the principles of Design Thinking agile development and lean start up combined in an easy to follow manner by anyone and helps transform ideas into business in a short timeframe with little or no investment
