Intentional Leadership for Effective Inclusion in Early Childhood Education and Care Mary Moloney, Eucharia McCarthy, 2018-05-11 Intentional leadership can unite

motivate and empower all educators to work towards the common goal of creating a truly inclusive culture in which all children with or without disabilities are supported and enabled to fully participate in every aspect of daily life and learning. This book recognises diverse manifestations of special educational needs from communication difficulties and delays in learning to social and physical disabilities and considers the ways in which these needs might be embraced within inclusive mainstream settings. Key to this is robust and purposeful leadership that removes barriers to learning, changes existing attitudes and values, motivates staff and foregrounds holistic learning opportunities and experiences. Chapters draw on theoretical models, reflect on international and national policies and consider topics including the image of the child, physical, aesthetic and temporal aspects of the learning environment, relational pedagogy, long, medium and short term planning, the role of assessment, collaborative working with parents, families and other professionals. In-depth descriptions of behaviours and leadership strategies, practice scenarios and activities support the reader's understanding. *Intentional Leadership for Effective Inclusion in Early Childhood Education and Care* is a comprehensive guide for students, teachers and practitioners involved in Early Childhood Education and Care, Social Care and Early Intervention programmes. *Handbook of Research on Empowering Early Childhood Educators With Technology* Burris, Jade, Rosen, Dina, Karno, Donna, 2021-06-18. Computers and mobile technologies have become widely adopted as sought-after tools in the field of education. The prevalence of technology in early childhood education (ECE) is increasing, and teachers both pre-service and in-service are using best practices to integrate tools effectively to improve teaching and learning within the field. This includes settings such as childcare centers, family childcare and community programs that have both educators and administrators adapting to the use of technology. Therefore, it has become critical to research and explore the best practices of technology integration and successful strategies to improve the use of technology in ECE. *The Handbook of Research on Empowering Early Childhood Educators With Technology* examines best practices that focus specifically on those that facilitate the development of competencies in teaching young children birth to age 8 and technology integration. The chapters include information on the foundations of technology in early childhood education, content-specific technology applications, developmentally appropriate practices (DAP) for learners using technology and how to meet diverse learner needs with technology. The target audience for this book is early childhood professionals, teacher educators, pre- and in-service teachers in early childhood settings, faculty and researchers in the field of education, instructional technologists, childcare and elementary school administrators, early education policy organizations and advocacy groups that are interested in the best practices and successful strategies for implementing technology in ECE. *Advancing Empathy and Equity in Early Childhood Education* Christine Mason, Randy Ross, Orinthia Harris, Jillayne Flanders, 2024-11-05. Antiracism and cultural competence when incorporated into early childhood education can powerfully impact young children's social and emotional development. Authors Christine Mason, Randy Ross, Orinthia Harris and Jillayne Flanders guide leaders in cultivating compassion and equity in their school.
