Public History Thomas Cauvin, 2022-05-18 The second edition of Public History A Textbook of Practice offers an updated guide to the many opportunities and challenges that public history practitioners can encounter in the field Historians can play a dynamic and essential role in contributing to public understanding of the past and those who work in historic preservation in museums and archives in government agencies as consultants as oral historians or who manage crowdsourcing projects need very specific skills This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings This new edition reflects how much the field of public history has changed in the past few years with public history now being more established and international New chapters have therefore been added on the definition history and international scope of public history as well as on specific practices and theories such as historical fictions digital public history and shared authority Split into four sections this textbook provides approaches methodologies and tools for historians and other public history practitioners to play a bigger role in public debates and public productions of historical interpretations Part I focuses on the past present and future of public history Part II explores public history sources and offers an overview of the creation collection management and preservation of materials archives material culture oral history or historical sites Part III deals with the different ways in which public history practitioners can produce historical narratives through different media including texts fictions audio visual productions exhibitions and performances Part IV discusses the opportunities and challenges that public history practitioners encounter when working with different collaborators Whether in public history methods courses or as a resource for practicing public historians this book lays the groundwork for making meaningful connections between historical sources and popular audiences

The Cambridge Economic History of Modern Europe: Volume 2, 1870 to the Present Stephen Broadberry, Kevin H. O'Rourke, 2010-06-24 Unlike most existing textbooks on the economic history of modern Europe which offer a country by country approach The Cambridge Economic History of Modern Europe rethinks Europe's economic history since 1700 as unified and pan European with the material organized by topic rather than by country This second volume tracks Europe's economic history through three major phases since 1870 The first phase was an age of globalization and of European economic and political dominance that lasted until the First World War The second from 1914 to 1945 was one of war deglobalization and depression and the third was one of growing integration not only within Europe but also between Europe and the global economy Leading authors offer comprehensive and accessible introductions to these patterns of globalization and deglobalization as well as to key themes in modern economic history such as economic growth business cycles sectoral developments and population and living standards

Social Policy in Capitalist History Ayşe Buğra, 2024-02-12 This invigorating book approaches social policy as a response to socioeconomic tensions and conflicts brought about by capitalist development exploring how such policy reflects and shapes the world of work and socioeconomic

life Ay e Bu ra presents a historical overview of the ideas and politics of social policy in a discussion framed around the interrelated questions of poverty work and inequality Extreme Money Satyajit Das,2011 Everything from home mortgages to climate change has become financialized as vast fortunes are generated by individuals who build nothing of lasting value Das shows how extreme money has become ever more unreal how voodoo banking continues to generate massive phony profits even now and how a new generation of Masters of the Universe has come to dominate the world

History of Education Policymaking in India, 1947-2016 R. V. Vaidyanatha Ayyar,2017-09-12 This book comprehensively chronicles the history of the education policymaking in India from 1947 to 2016 with a focus on the developments after 1964 when the Kothari Commission was constituted The book is informed by the rare insights acquired by the author while making policy at the state national and international levels of governance Another distinguishing feature of this book lies in the attention it pays to the process and politics of policymaking and the larger setting or to use jargon the political and policy environment in which policies were made at different points of time The author brings out a crucial analysis of the Indian educational system against the backdrop of national and global political economic and educational developments Two other distinguishing features of the book are the systematic treatment of the regulation of education and the role of judiciary in the making and implementation of education policies

Sociology of Crisis Myrto Tsilimpounidi,2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow globalisation In the European context crisis is seen as a threat to the stability of the region rather than a local or national concern Post 2008 crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit In this book Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss deprivation and increased vectors of marginalisation Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the level of the European Union Sociology of Crisis takes an approach that is firmly located within a critical sociological appeal to reflexivity A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology social policy geography urban studies and research methods social science

Homelessness in America Stephen Eide,2022-06-02 The last thirty years have witnessed an urban renaissance in America Major cities have managed to drive down the murder rate improve the schools restore the built environment and revitalize their economies Middle class families are putting down roots in neighborhoods once given up for dead But solutions to homelessness have eluded even the most successful cities While the South Bronx was once synonymous across the globe for slum now San Francisco and Los Angeles are just as internationally notorious for their homelessness crises Indeed the same cities with the worst homelessness crises rank among

America's most successful One of the crisis more perplexing features is how cities that have met with so much success with respect to economic development crime and public education have failed to even ease their homelessness crisis much less end it In *Homelessness in America* Stephen Eide examines the history governmental and private responses and future prospects of this intractable challenge The chronic nature of the challenge should be understood he argues by reference to American history and American ideals The history of homelessness is bound up with industrialization and urbanization the closing of the West the Great Depression and the post WWII decline and subsequent revival of great American cities Though we've used different terms tramp hobo bum at other times something like homelessness has always been with us and the debate over causes and solutions has always involved conflicts over fundamental values After explaining why homelessness persists in America and correcting popular misconceptions about the issue Eide offers concrete recommendations for how we can do better for the homeless population *Homelessness in America* engages readers by answering the most common questions their audience brings to the topic and exploring other questions that are no less important for being not as commonly asked Homelessness intersects with multiple other policy areas education urban development criminal justice reform mental health By exploring the intersection of homelessness with so many other policy areas this book aspires to provide a comprehensive account of the challenge

A History of the Twentieth Century in 100 Maps Tim Bryars, Tom Harper, 2014-12-10 The twentieth century was a golden age of mapmaking an era of cartographic boom Maps proliferated and permeated almost every aspect of daily life not only chronicling geography and history but also charting and conveying myriad political and social agendas Here Tim Bryars and Tom Harper select one hundred maps from the millions printed drawn or otherwise constructed during the twentieth century and recount through them a narrative of the century's key events and developments As Bryars and Harper reveal maps make ideal narrators and the maps in this book tell the story of the 1900s which saw two world wars the Great Depression the Swinging Sixties the Cold War feminism leisure and the Internet Several of the maps have already gained recognition for their historical significance for example Harry Beck's iconic London Underground map but the majority of maps on these pages have rarely if ever been seen in print since they first appeared There are maps that were printed on handkerchiefs and on the endpapers of books maps that were used in advertising or propaganda maps that were strictly official and those that were entirely commercial maps that were printed by the thousand and highly specialist maps issued in editions of just a few dozen maps that were envisaged as permanent keepsakes of major events and maps that were relevant for a matter of hours or days As much a pleasure to view as it is to read *A History of the Twentieth Century in 100 Maps* celebrates the visual variety of twentieth century maps and the hilarious shocking or poignant narratives of the individuals and institutions caught up in their production and use

The Age of Post-Rationality Val Colic-Peisker, Adrian Flitney, 2017-10-24 This book challenges the hegemonic view that economic calculation represents the ultimate rationality The West legitimises its global dominance by the claim to be a

rational democratic science based and progressive civilisation Yet over the past decades the dogma of economic rationality has become an ideological black hole whose gravitational pull allows no public debate or policy to escape Political leaders of all creeds are held in its orbit and public language is saturated by it This dogma has pervaded all spheres of life ushering the age of post rationality especially in English speaking countries The authors discuss several aspects of post rational global capitalism still dominated by the Anglosphere hyper competition hyper consumption inequality volatile global financial markets environmental degradation and the unforeseen effects of the internet mediated communication revolution The book concludes by discussing some utopian and dystopian future scenarios and asking whether the West can transcend its crisis of rationality

Towards A Semantic Web Bill Cope,Mary Kalantzis,Liam Magee,2011-01-14 This book addresses the question of how knowledge is currently documented and may soon be documented in the context of what it calls semantic publishing This takes two forms a more narrowly and technically defined semantic web as well as a broader notion of semantic publishing This book examines the ways in which knowledge is represented in journal articles and books By contrast it goes on to explore the potential impacts of semantic publishing on academic research and authorship It sets this in the context of changing knowledge ecologies the way research is done the way knowledge is represented and the modes of knowledge access used by researchers students and the general public Provides an introduction to the semantic web and semantic publishing for readers outside the field of computer science Discusses the relevance of the semantic web and semantic publishing more broadly and its application to academic research Examines the changing ecologies of knowledge production

Right to Reparations Rachel Blumenthal,2021-07-07 This book examines the early years of the Claims Conference the organization which lobbies for and distributes reparations to Holocaust survivors and its operations as a nongovernmental actor promoting reparative justice in global politics Rachel Blumenthal traces the founding of the organization by one person and its continued campaign for the payment of compensation to survivors after Israel left the negotiations This book explores the degree to which the leadership entity served individual victims of the Third Reich the Jewish public or member organizations

The Dark Side of Prosperity Mark Horsley,2016-03-09 This book offers a critical analysis of consumer credit markets and the growth of outstanding debt presenting in depth interview material to explore the phenomenon of mass indebtedness through the life trajectories of self identified debtors struggling with the pressures of owing money A rich and original qualitative study of the close relationship between financial capitalism consumer aspirations social exclusion and the proliferation of personal indebtedness *The Dark Side of Prosperity* examines questions of social identity subjectivity and consumer motivation in close connection with the socio cultural ideals of an enjoyment society that binds the value of the lives of individuals to the endless acquisition and disposal of pecuniary resources and lifestyle symbols Critically engaging with the work of Giddens Beck and Bauman this volume draws on the thought of contemporary philosophers including Zizek Badiou and Ranci re to consider the possibility that the expansion of outstanding consumer

credit despite its many consequences may be integral to the construction of social identity in a radically indeterminate and increasingly divided society A ground breaking work of critical social research this book will appeal to scholars of social theory contemporary philosophy and political and economic sociology as well as those with interests in consumer credit and cultures of indebtedness **Ending Extreme Inequality** Scott Myers-Lipton,2015-11-17 Poverty and inequality are at record levels Today forty seven million Americans live in poverty while the median is in decline The top 20 percent now controls 89 percent of all wealth These conditions have renewed demands for a new economic Bill of Rights an idea proposed by F D Roosevelt Truman and Martin Luther King Jr The new Economic Bill of Rights has a coherent plan and proclaims that all Americans have the right to a job a living wage a decent home adequate medical care good education and adequate protection from economic fears of unemployment sickness and old age Integrating the latest economic and social data **Ending Extreme Inequality** explores each of these rights Each chapter includes an analysis of the social problems surrounding each right a historical overview of the attempts to right these wrongs and assessments of current solutions offered by citizens community groups and politicians These contemporary real life solutions to inequality can inspire students and citizens to become involved and open pathways toward a more just society **The Boundaries of Desire** Eric Berkowitz,2015-08-01 The act of reproduction and its variants never change much but our ideas about the meaning of sex are in constant flux Switch a decade cross a border or traverse class lines and the harmless pleasures of one group become the gravest crimes in another Combining meticulous research and lively storytelling **The Boundaries of Desire** traces the fast moving bloodsport of sex law over the past century and challenges our most cherished notions about family power gender and identity Starting when courts censored birth control information as pornography and let men rape their wives and continuing through the sexual revolution and into the present day when rape gay rights sex trafficking and sex on the internet saturate the news Berkowitz shows how the law has remained out of synch with the convulsive changes in sexual morality By focusing on the stories of real people Berkowitz adds a compelling human element to what might otherwise be faceless legal battles The law is made by people after all and nothing sparks intolerance on the left and right more than sex Ultimately Berkowitz shows the emptiness of sanctimonious condemnation and argues that sexual questions are too subtle and volatile for simple catch all solutions **Work 3.0** Avik Chanda,2023-04-24 What will the worker workplace and work itself look like in the future **Work 3.0** tackles this and some of the other most pressing and complex questions of the present age head on Avik Chanda and Siddhartha Bandyopadhyay employ rigorous research supplemented with industry reports business case studies expert interviews anecdotes their personal expertise and insights to present a rich multi disciplinary brew that spans economics statistics public policy history sociology psychology law political science literature and philosophy Highly ambitious in scope astonishingly rich in analytical detail and far reaching in its conclusions the book will change the way you think about the future and how the past and present still shape it Conceived as the ultimate future of work preparation guide this book is

essential reading for our tenuous and unpredictable times *Freedom from Fear, Freedom from Want* Robert J. Hanlon, Kenneth Christie, 2016-01-01 *Space Capitalism* Peter Lothian Nelson, Walter E. Block, 2018-07-06 This book compares and contrasts the motivations morality and effectiveness of space exploration when pursued by private entrepreneurs as opposed to government The authors advocate market driven private initiatives take the lead through enhanced competition and significant resources that can be allocated to the exploration and exploitation of outer space Space travel and colonisation is analysed through the prism of economic freedom and laissez faire capitalism in a unique and accessible book **Making a World of Difference** National Academy of Engineering, 2014-01-01 Fifty years ago the National Academy of Engineering NAE was founded by the stroke of a pen when the National Academy of Sciences Council approved the NAE s articles of organization Making a World of Difference commemorates the NAE anniversary with a collection of essays that highlight the prodigious changes in people s lives that have been created by engineering over the past half century and consider how the future will be similarly shaped Over the past 50 years engineering has transformed our lives literally every day and it will continue to do so going forward utilizing new capabilities creating new applications and providing ever expanding services to people The essays of Making a World of Difference discuss the seamless integration of engineering into both our society and our daily lives and present a vision of what engineering may deliver in the next half century *Your History with Me* Sarah Nuttall, 2024-07-12 The critics scholars curators artists and filmmakers in this volume examine the films of Penny Siopis showing how they remake the possibility of film as a mode of experimentation and intervention **Worst-Case Economics** Frank Ackerman, 2017-10-23 Worst case scenarios are all too real and all too common The financial crisis of 2008 was not the first or the last to destroy jobs homeownership and the savings of millions of people Hurricanes clobber communities from New York to Bangladesh How bad will the next catastrophe be and how soon will it happen Climate and financial crises are serious events requiring vigorous responses Yet public policy is trapped in an obsolete framework with a simplistic focus on average or likely outcomes rather than dangerous extremes What would it take to create better analyses of extreme events in climate and finance and an appropriate policy framework for worst case risks Worst Case Economics Extreme Events in Climate and Finance offers accessible and surprising answers to these crucial questions
