Equality Unfulfilled James N. Druckman, Elizabeth A. Sharrow, 2023-07-20 The year 1972 is often hailed as an inflection point in the evolution of women's rights. Congress passed Title IX of the Education Amendments of 1972, a law that outlawed sex-based discrimination in education. Many Americans celebrate Title IX for having ushered in an era of expanded opportunity for women's athletics. Yet fifty years after its passage, sex-based inequalities in college athletics remain the reality. *Equality Unfulfilled* explains why. The book identifies institutional roadblocks including sex-based segregation, androcentric organizational cultures, and overbearing market incentives that undermine efforts to achieve systemic change. Drawing on surveys with student athletes, athletic administrators, college coaches, members of the public, and fans of college sports, it highlights how institutions shape attitudes toward gender equity policy. It offers novel lessons not only for those interested in college sports but for everyone seeking to understand the barriers that any marginalized group faces in their quest for equality.

The Fastest Game in the World Bruce Berglund, 2020-12-08 The untold story of hockey's deep roots from different regions of the world and its global cultural impact. Played on frozen ponds in cold northern lands, hockey seemed an especially unlikely game to gain a global following. But from its beginnings in the nineteenth century, the sport has drawn from different cultures and crossed boundaries between Canada and the United States across the Atlantic and among different regions of Europe. It has been a political flashpoint within countries and internationally. And it has given rise to far-reaching cultural changes and firmly held traditions. *The Fastest Game in the World* is a global history of a global sport, drawing upon research conducted around the world in a variety of languages. From Canadian prairies to Swiss mountain resorts, Soviet housing blocks to American suburbs, Bruce Berglund takes readers on an international tour seamlessly weaving in hockey's local, national, and international trends. Written in a lively style with wide-ranging breadth and attention to telling detail, *The Fastest Game in the World* will thrill both the lifelong fan and anyone who is curious about how games intertwine with politics, economics, and culture.

The Public Insult Playbook Ruth Colker, 2021-10-26 When they go low, we learn an examination of mudslinging in contemporary American politics and how the left can find its footing to achieve structural reform in this mess. The rules of the public discourse game have changed, and *The Public Insult Playbook* argues that the political left needs to account for the power of vitriol in crafting their theories for social and political change. With this book, noted constitutional law expert and disability rights advocate Ruth Colker offers insights into how public insults have come to infect contemporary public discourse, a technique not invented by but certainly refined by Donald Trump, and importantly highlights lessons learned and tools for fighting back. Public insults act as a headwind and dead weight to structural reform. By showcasing the power of insults across a number of civil rights battlegrounds, *The Public Insult Playbook* uncovers the structural nature of personal attacks and offers a blueprint for a legal and political strategy that anticipates the profound but poorly understood damage they can inflict on whole movements. Illustrating how completely the tactic has been

adopted and embraced by the American right wing the book catalogues how public insults have been used against people with disabilities immigrants people seeking abortions individuals who are sexually harassed members of the LGBTQ community and of course Black Americans These examples demonstrate both the pervasiveness of the deployment of insults by the political right and the ways in which the left has been caught flat footed by this tactic She then uses the Black Lives Matter movement as a case study to consider how to effectively counter these insults and maintain an emphasis on structural reform
