Exploring the 'Legal' in Socio-Legal Studies David Cowan, Daniel Wincott, 2019-03-01 Socio legal studies have had an ambivalent relationship with the legal one of its defining aspects but at the same time one that the discipline has sought to transcend or even leave behind While socio legal studies benefit hugely from the insights methods and theories of other social science and humanity disciplines the contributions to Exploring the Legal in Socio Legal Studies illustrate the value of a focus on the legal The chapters in this book combine traditional legal materials and analyses with other ways of engaging empirically with the legal They illustrate the rich potential of the legal as a site both for theoretical and methodological reflection and for case study analysis Taken as a whole this volume demonstrates that methodological discussion is most helpful when rooted in empirical cases and that the best case studies also help us to develop our methodologies Bringing methodology and empirical analysis together offers an opportunity to reflect on socio legal studies and develop the discipline in productive new directions

Exploring the 'Socio' of Socio-Legal Studies Dermot Feenan, 2017-03-01 In this insightful collection a broad range of scholars analyzes a core issue for socio legal studies what is understood by the socio of the socio legal Drawing from legal theory cultural studies and social policy the collection s wide scope of themes and topics provides an important stock take and analysis of the socio legal field

New Challenges to Ageing in the Rural North Päivi Naskali, Joan R. Harbison, Shahnaj Begum, 2019-08-26 This book provides an underexplored view of ageing one that conceives older people as valuable resources in their communities as active citizens with both voice and an agency that includes the capacity for resistance It acknowledges that becoming old with dignity means also paying attention to caring good health services and the possibility of good death The book defines age and ageing as multiple culturally and historically constructed phenomena that are only loosely connected to the years of one s life In focusing on the peripheral North located in the Nordic Canadian and Russian north it highlights important questions and viewpoints that can be found and adapted to other rural areas The book answers the following questions What is the relevance of legislation and international legal agreements in ensuring the rights of elderly people under political and economic changes What challenges do geographic isolation changing age structure and cultural and ecological transformations pose to possibilities for meeting older people s needs for engagement in society as well as for their care As such this book will be of interest to all those working in population aging

Jurisprudence and Socio-Legal Studies Roger Cotterrell, 2024-03-12 This book presents a set of related studies aimed at showing key points of

intersection and common interest between jurisprudence and socio legal studies which are otherwise typically considered distinct fields It reflects and draws on the author s work in these areas over more than four decades The first half of the book explores theoretical issues surrounding the enterprise of socio legal research its current scope and its historical traditions Some chapters directly compare juristic theory and socio legal inquiry Chapters in Part II profile a selection of European jurists whose work offers important insights for socio legal inquiry Other chapters frame these studies explore the history of interactions between jurisprudence and socio legal research and show points of convergence between these fields that are increasingly important today A main aim of the book is to show the current urgency of linking and broadening juristic and social scientific interests in law Internationally oriented the book will be of interest to students and researchers in the areas of jurisprudence legal philosophy sociology of law socio legal studies and comparative law It is suitable as supplementary reading for courses in any of these subjects

Introducing Board Gender Diversity to Sri Lanka Menaka

Angammana,2023-03-02 Through a socio legal lens this book focuses on the feasibility of implementing board gender diversity rules in Sri Lanka It demonstrates that board gender diversity rules could be a valuable tool for corporate governance development and to promote gender equality in society The International Financial Institutions IFIs have reasoned that good corporate governance practices can develop the economy by attracting investors and securing foreign direct investment Accordingly these IFIs have included corporate governance reform as a condition for funding to developing countries Among these reforms board gender diversity is acknowledged as a legal concept that is capable of improving corporate governance practices and promoting gender equality in society The benefits to corporate governance often referred to as the economic benefits of the concept are based on the contribution women directors can make towards advancing board effectiveness The equality benefits underpinning this strategy depict the manner in which gender equality could be promoted by board gender diversity rules Sri Lanka is thus an illustrative example of a developing country forced by IFIs to improve its corporate governance practices as a step towards advancing economic growth However the Sri Lankan legislators have not yet introduced board gender diversity rules as a measure to improve corporate governance practices within the country This book addresses some of the ways in which board gender diversity rules could be introduced to Sri Lanka

At the End of Property Veit Braun,2024-06-25 Recent decades have witnessed the creation of new types of property systems ranging from data ownership to national control over genetic resources This trend has significant implications for wealth distribution and our understanding of who can own what This book explores the idea of ownership in the realm of plant breeding revealing how plants have been legally and materially transformed into property It highlights the controversial aspects of turning seeds plants and genes into property and how this endangers the viability of the seed industry Examining ownership not simply as a legal concept but as a bundle of laws practices and technologies this is a valuable contribution that will interest scholars of intellectual property studies the anthropology of markets science and

technology studies and related fields **An Economic Sociology of Law Reimagined** Clare Williams, 2022-12-14 This book critically examines the concept of embeddedness the core concept of an economic sociology of law ESL It suggests that our ways of doing talking and thinking about law economy and society reproduce and re entrench mainstream approaches shaping our thoughts and actions such that we perform according to the model Taking a deep dive into one example the concept of embeddedness this book combines insights from law sociology economics and psychology to show that while we use metaphor to talk about law and economy our metaphors in turn use us moulding us into their fictionalized caricatures of homo juridicus and homo economicus The result is a groundbreaking study into the prioritization throughout society of interests and voices that align with doctrinal understandings of law and neoclassical understandings of economics approaches that led us into the dilemmas currently facing society Zooming out from a detailed exploration of embeddedness in economic sociology and ESL literature the book unpacks the fashionable post 2008 claim that the economy should be re embedded in society and proposes two conceptual shifts in response The book draws on personas and vignettes throughout both to imagine and to realize shifting an ESL beyond embeddedness This timely engagement with the emerging field of economic sociology of law will appeal to socio legal scholars and others with interests in the intersection of law economics and sociology The Open Access versions of Chapter 1 and Chapter 6 available at www.taylorfrancis.com have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license **Change and Continuity**

 Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world s legal professions have undergone dramatic changes in
 the 30 years since publication of the landmark three volume *Lawyers in Society* which launched comparative sociological
 studies of lawyers This is the first of two volumes in which scholars from a wide range of disciplines countries and cultures
 document and analyse those changes The present volume presents reports on 46 countries with broad coverage of North
 America Western Europe Latin America Asia Australia North Africa and the Middle East sub Saharan Africa and former
 communist countries These national reports address the impact of globalisation and neoliberalism on national legal
 professions the relationship of lawyers and their professional associations to the state and tensions between state and
 citizenship changes in lawyer demography rapidly growing numbers and the profession s efforts to retain control the entry of
 women and obstacles to full gender equality ethnic diversity legal education the proliferation of institutions and pedagogic
 innovation the regulation of lawyers structures of production especially the growth of large firms and the impact of
 technology and paraprofessionals the distribution of lawyers across roles and access to justice state funded legal aid and pro

 and working practices and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification
 within a new geopolitical order **Transnational Crime** Jessica Roher, Nicola Guarda, Maryam Khalid, 2018-09-03 Philip
 Jessup coined the term transnational law in his Storrs Lecture on Jurisprudence delivered in 1956 to describe law that
 regulates activities or actions that transcend national borders The term redefined the development and practice of the law
 and became a distinct field of study In 2001 Neil Boister applied Jessup s concept to the field of criminal law and identified
 the emergence of transnational criminal law in a formative article published in the *European Journal of International Law*
 Inspired by Boister s work the editors of the journal *Transnational Legal Theory* sought contributions from leading academics
 and practitioners for a symposium issue on transnational criminal law In their papers the authors built upon and developed
 novel approaches to legal issues arising in an increasingly globalized world where both crimes and the regulation of crimes
 transcend borders The publication of this book marks the sixtieth anniversary of Jessup s seminal lecture and exemplifies the
 significant impact that Jessup and later Boister have had on legal scholarship and practice in the area of criminal law We are
 honoured to publish the symposium as a monograph and to contribute to this rapidly evolving field This book was previously
 published as a special issue of *Transnational Legal Theory* Decentring Urban Governance Mark Bevir, Kim McKee, Peter
 Matthews, 2017-09-20 *Decentring Urban Governance* seeks to rethink governance not as a particular state formation but as

the diverse policies emerging associated with the impact of modernist social science on policy making considering the diverse meanings that inspire governing practices across time space and policy sectors in urban context Taking an interdisciplinary approach the book goes beyond neoliberalism and is interested in other webs of meaning through which actors encounter interpret and evaluate social science which have received less analytical attention All these different webs of meaning elite narratives social science and local traditions influence patterns of action The book creates an analytical space by which to consider situated agency and localised resistance to the discourses and policies of political elites including the myriad ways in which local actors have resisted practices of governance on the ground This text will be of key interest to scholars students and practitioners of urban governance governance and more broadly to the social sciences housing social policy law and welfare studies

Not What The Bus Promised Tamara Hervey,Ivanka Antova,Mark L Flear,Matthew Wood,2023-10-05 What does the UK's exit from the EU mean for health and the NHS This book explains the legal and practical implications of Brexit on the NHS its staffing especially on the island of Ireland medicines medical devices and equipment and biomedical research It considers the UK's post Brexit trade agreements and what they mean for health and discusses the effects of the COVID 19 pandemic on post Brexit health law To put the legal analysis in context the book draws on over 400 conversations the authors had with people in the north of England and Northern Ireland interviews with over 40 health policy stakeholders details of a film about their research made with ShoutOut UK the authors work with Parliaments and governments across the UK and their collaborations with key actors like the NHS Confederation the British Medical Association and Cancer Research UK The book shows that the language people use to talk about hoped for legitimate post Brexit health governance suggests a great deal of faith in law and legal process among ordinary people but the opposite from insider elites Not What The Bus Promised puts the authors knowledge and experiences centre frame rather than claiming to express objective reality It will be of interest to any reader who cares about the NHS and wants to understand its present and future

Ownership, Narrative, Things Dave Cowan,Helen Carr,Alison Wallace,2018-05-09 This book uses a case study of a low cost home ownership initiative at the margins of renting and owning provided by social landlords known as shared ownership to challenge everyday assumptions held about the social and the legal in property The authors provide a study of the construction of property ownership from the creation of this idea through to the present day and offer a fresh consideration of key issues surrounding property ownership and the social Analysing a diverse range of sources from archives to micro blogs observation of housing providers and interviews with shared owners the authors explain the significance of the things from the formal documents like leases to odd materials like sweet wrappers and cigarette butts commonly found in the narratives around shared ownership which are used to construct it as private ownership in everyday life Ultimately they uncover how this dream of ownership can become tarnished when people's identities as owners come under threat and as such these findings will provide fascinating insight into the intricacies of so called home ownership for

scholars of Law Criminology and Sociology Intersex Embodiment Fae Garland, Mitchell Travis, 2022-11-22 This book examines the divergent medical political and legal constructions of intersex The authors use empirical data to explore how intersex people are embodied through these frameworks which in turn influence their lived experiences Through their analysis the authors reveal the factors that motivate and influence the way in which policy makers and legislators approach the area of intersex rights They reflect on the limitations of law as the primary vehicle in challenging healthcare s framing of intersex as a disorder in need of fixing Finally they offer a more holistic account of intersex justice which is underpinned by psychosocial support and bodily integrity **Forging a Socio-Legal Approach to Environmental Harms** Tiffany Bergin, Emanuela Orlando, 2017-06-14 Environmental harms exert a significant toll and pose substantial economic costs on societies around the world Although such harms have been studied from both legal and social science perspectives these disciplinary specific approaches are not on their own fully able to address the complexity of these environmental challenges Many legal approaches for example are limited by their inattention to the motivations behind environmental offences whereas many social science approaches are hindered by an insufficient grounding in current legislative frameworks This edited collection constitutes a pioneering attempt to overcome these limitations by uniting legal and social science perspectives Together the book s contributors forge an innovative socio legal approach to more effectively respond to and to prevent environmental harms around the world Integrating theoretical and empirical work the book presents carefully selected illustrations of how legal and social science scholarship can be brought together to improve policies The various chapters examine how a socio legal approach can ultimately lead to a more comprehensive understanding of environmental harms as well as to innovative and effective responses to such environmental offences The SAGE Handbook of Qualitative Research Ethics Ron Iphofen, Martin Tolich, 2018-02-05 This handbook is a much needed and in depth review of the distinctive set of ethical considerations which accompanies qualitative research This is particularly crucial given the emergent dynamic and interactional nature of most qualitative research which too often allows little time for reflection on the important ethical responsibilities and obligations Contributions from leading international researchers have been carefully organised into six key thematic sections Part One Thick Descriptions Of Qualitative Research Ethics Part Two Qualitative Research Ethics By Technique Part Three Ethics As Politics Part Four Qualitative Research Ethics With Vulnerable Groups Part Five Relational Research Ethics Part Six Researching Digitally This Handbook is a one stop resource on qualitative research ethics across the social sciences that draws on the lessons learned and the successful methods for surmounting problems the tried and true and the new Violence, Imagination, and Resistance Katrin Roots, 2023-05-25 Much of the discussion of social transformation and resistance in socio legal studies centres around the question of whether and how the law can be used to achieve practical change However the editors of this volume argue that it will never be possible to enact change through the law because it is inseparable from violence be it metaphysical social or political They posit that a just

world free from oppressive power relations requires us to imagine communities where the state and its law cease to exist Contributors address the underexplored questions of what alternatives to law could look like how communities could organize their everyday lives and how they could address social and interpersonal conflicts outside of an apparatus of violence These essays contribute to the ongoing interrogation of settler colonialism racism and structural violence in Canada by demonstrating how to expose the violence the law produces how to deconstruct law's power and finally how to identify modes of resistance that have transformative potential

Rethinking Family Mediation Rachael Blakey, 2025-02-26 Over several decades policies have made mediation a key part of the English and Welsh family justice system As the process faces increasing demand from a diverse and complex client base some argue for a return to a fully funded court system However this dominant view overlooks the longstanding problems with the court process as well as the potential value of mediation This book based on original research highlights the evolving role of mediators who assist families without legal support By doing so it reveals a contemporary vision of family justice that addresses some of the challenges in today's landscape

The Queer Outside in Law Senthoran Raj, Peter Dunne, 2020-11-30 This book contributes to current debates about queer outsiders and queer outsiders that emerge from tensions in legal reforms aimed at improving the lives of lesbian gay bisexual transgender intersex and queer people in the United Kingdom LGBTIQ people in the UK have moved from being situated as outlaws through prohibitions on homosexuality or cross dressing to respectable in laws through the emerging acceptance of same sex families and self identified genders From the partial decriminalisation of homosexuality in the Sexual Offences Act 1967 to the provision of a bureaucratic mechanism to amend legal sex in the Gender Recognition Act 2004 bringing LGBTIQ people inside the law has prompted enormous activist and academic commentary on the desirability of inclusion focused legal and social reforms Canvassing an array of current socio legal debates on colonialism refugee law legal gender recognition intersex autonomy and transgender equality the contributing authors explore queer outsiders who remain beyond the law's reach and outline the ways in which these outsiders might seek to come within and or stay outside law Given its scope this modern work will appeal to legal scholars lawyers and activists with an interest in gender sex sexuality race migration and human rights law
