### **Pdf Nile Waters Saharan Sands Geomorphologist:**

*Nile Waters, Saharan Sands* Martin Williams, 2015-12-23 In this book the author describes in simple non technical terms the adventures he has experienced during his work as an earth scientist in some of the remote parts of the arid and semi arid world His aim in writing this concise account of some of the work he has been involved in over the past fifty years is to try to convey to the non specialist some of the excitement and fun involved in fieldwork in the drier regions of the world His studies of the soils landforms and the recent geological history of arid and semi arid regions have taken Martin Williams to some remarkable places in Africa Asia Australia and the Middle East Not only are the landscapes themselves often stunningly beautiful but the contact with people from quite different backgrounds and cultures has been an enriching experience His work has taken him to places far off the beaten track whether it be the rugged mountains of Ethiopia and northern China the sandy deserts of the Sahara and Rajasthan or the great river valleys of Somalia central India and the Nile The chapters that follow are not intended to form a coherent chronological narrative although they do appear in rough chronological order They should rather be viewed as vignettes or brief evocative descriptions much as in the discursive tradition of the wandering Irish storytellers Acting on the principle that it is not necessary to be solemn to be serious the author aims to entertain as well as to instruct

**The River Nile** R. Said, 2013-10-22 This multidisciplinary book by the author of *The Geology of Egypt* is the result of many years of research It attempts to reconstruct the history of the River Nile from its origins to its present shape and regimen and also to ascertain the amount of water which has been carried by the river during the course of its history It examines the manner in which this water was utilized in the past and the ways in which it will have to be used in future if the inhabitants of the river basin are to cope with their anticipated needs Part One traces the geological history of the Nile from the time it started to excavate its valley some six million years ago until the present shape was assumed during the wet period which affected Africa after the retreat of the ice of the last glacial age some 10 000 years ago Part Two deals with the amount of water that the river and its tributaries carry at present and have carried in the past Part Three discusses the utilization of the water of the Nile from the time of the first appearance of man in the valley until the present time It traces man's attempt to harness the river from the earliest time to the building of the Aswan High Dam The book evaluates the effects of the dam after twenty years of operation Part Four covers the present water supply demand balance in each basin state and discusses the future plans of these countries to use the waters of the Nile The rapidly growing populations and the prolonged droughts of recent years have put pressure upon the available waters of the river

**The Geological Evolution of the River Nile** Rushdi Said, 2012-12-06 This book gives the geological history of the river Nile since it started to excavate its course in the Egyptian plateaus in late Miocene time in response to the lowering sea level of the desiccating Mediterranean It formed a canyon longer deeper and just as awe inspiring as the Grand Canyon Arizona The canyon was transgressed by the advancing Mediterranean as it started filling during the early Pliocene and since then by

a number of rivers which ebbed and flowed as they succeeded one another The modern Nile is a recent and humble successor to mighty rivers which once occupied the Nile Valley Dallas Texas Rushdi Said August 1981 Acknowledgments This book is based on field work carried out in Egypt during the seasons 1961 1978 while the author was a member of the Combined Prehistoric Expedition sponsored by Southern Methodist University the Polish Academy of Science and the Geological Survey of Egypt Grateful acknowledgment is made to Professor Fred Wendorf leader of the Expedition and to several members for their fruitful discussions Notable among these arepr Claude Albritton Southern Methodist University and Dr J De Heinze lin University of Ghent Belgium The field work was aided by geologists M S Abdel Ghany and A Zaghloul of the Geological Survey of Egypt The drafting was by Reed Ellis and Hoda S Ar manious I am also grateful to Dr M K

**The Nile Basin** Martin Williams,2019-01-03 The Nile Basin contains a record of human activities spanning the last million years However the interactions between prehistoric humans and environmental changes in this area are complex and often poorly understood This comprehensive book explains in clear non technical terms how prehistoric environments can be reconstructed with examples drawn from every part of the Nile Basin Adopting a source to sink approach the book integrates events in the Nile headwaters with the record from marine sediment cores in the Nile Delta and offshore It provides a detailed record of past environmental changes throughout the Nile Basin and concludes with a review of the causes and consequences of plant and animal domestication in this region and of the various prehistoric migrations out of Africa into Eurasia and beyond A comprehensive overview this book is ideal for researchers in geomorphology climatology and archaeology
