Effective Teaching Strategies for Dyscalculia and Learning Difficulties in Mathematics Marie-Pascale Noël, Giannis Karagiannakis, 2022-03-28 *Effective Teaching Strategies for Dyscalculia and Learning Difficulties in Mathematics* provides an essential bridge between scientific research and practical interventions with children. It unpacks what we know about the possible cognitive causation of mathematical difficulties in order to improve teaching and therefore learning. Each chapter considers a specific domain of children's numerical development: counting and the understanding of numbers, understanding of the base 10 system, arithmetic word problem solving, and understanding rational numbers. The accessible guidance includes a literature review on each topic, surveying how each process develops in children, the difficulties encountered at that level by some pupils, and the intervention studies that have been published. It guides the reader step by step through practical guidelines of how to assess these processes and how to build an intervention to help children master them. Illustrated throughout with examples of materials used in the effective interventions described, this essential guide offers deep understanding and effective strategies for developmental and educational psychologists, special educational needs and/or disabilities coordinators, and teachers working with children experiencing mathematical difficulties.

Numeracy and Learning Difficulties Peter Westwood, 2016-09-01 *Numeracy and Learning Difficulties* provides guidance on how to develop flexible teaching methods and strategies to improve mathematical skills of students. It discusses common areas of learning difficulty in mathematics and looks at ways teachers can determine gaps in students' knowledge as well as how to develop curricula and problem-solving strategies to address these gaps. **Supporting Education** Karen Kearns, 2019-07-02 The new edition of *Supporting Education* is the perfect handbook for anyone who works with qualified teachers in a role supporting the education and development of school children. *Supporting Education 3e* is written to support the Certificate III in Education Support qualification from the streamlined CHC Community Services Training Package. It provides Education Support Workers with an overview of child development and how children learn, as well as an introduction to the key learning areas. The text also links to new online support resources and information to help with teaching and class prep time. Premium online teaching and learning tools are available on the MindTap platform.
