International Students from Asia in Canadian Universities Ann Kim, Elizabeth Buckner, Jean Michel Montsion, 2023-08-11

This book explores how the recruitment and retention of Asian international students in Canadian universities intersects with other institutional priorities. Responding to the growing need for new insights and perspectives on the institutional mechanisms adopted by Canadian universities to support Asian international students in their academic and social integration to university life, it crucially examines the challenges at the intersection of two institutional priorities: internationalization and anti racism. This is especially important for the Asian international student group who are known to experience invisible forms of discrimination and differential treatment in Canadian post secondary education institutions. The authors present new conceptualisations and theoretical perspectives on topics including international students' experiences and understandings of race and racism, comparisons with domestic students and/or non Asian students, institutional discourse and narratives on Asian international students, comparison with other university priorities, cross national comparisons, best practices and recent developments linked to the COVID 19 pandemic. Foregrounding the institutional strategies of Canadian universities as opposed to student experience exclusively, this direct examination of institutional responses and initiatives draws out similarities and differences across the country, compares them within the broader array of university priorities and ultimately offers the opportunity for Canadian universities to learn from each other in improving the integration of Asian international students and others to their student body. It will appeal to teacher scholars, researchers and educators with an interest in higher education, international education and race and ethnic studies. Technology for Exceptional Learners Sarah Irvine Belson, 2003. Designed to help teachers learn how technology can support education in the special education classroom.

Serving Vulnerable and Marginalized Populations in Social and Educational Contexts Anies Al-Hroub, Sally Reis, Joseph Madaus, Itab Shuayb, 2024-04-26. There is evidence that the global COVID 19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups including exceptional learners, stateless street migrant and refugee children and youths, and the limited use of frameworks of emergency planning with and for marginalized and at risk individuals. These challenges are multi sectoral and intersecting and they require multi and interdisciplinary interventions to inform inclusive responses. These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education, online, remote and blended education. Intersecting forms of discrimination such as gender, socioeconomic and legal status further exacerbate the problem. This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences, problems and needs from an educational perspective, thus bringing insights into their vulnerabilities during the pandemic.

Language, Learning, and Disability in the Education of Young Bilingual Children Dina C. Castro, Alfredo J. Artiles, 2021-04-27.
