Paulus Potterschilderijen Tekeningen En Etsen

Patrick Vollmar

Paulus Potterschilderijen Tekeningen En Etsen:

Paulus Potter Paulus Potter, Amy Walsh, Edwin Buijsen, Mauritshuis (Den Haag), 1994 Catalogus bij een expositie over leven en werk van de Nederlandse schilder en tekenaar 1625-1654 **The Ashgate Research Companion to Dutch Art of the Seventeenth Century** Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field. As the first study of its kind, this book is a useful resource for scholars and advanced students of seventeenth-century Dutch art and also serves as a springboard for further research. Its 19 chapters, divided into three sections and written by a team of internationally renowned art historians, address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently. **The Dutch Drawings in the Teyler Museum** Teylers Museum, 1997 Challenges of a Changing Earth Will Steffen, Jill Jäger, David J. Carson, Clare Bradshaw, 2002-10-08 This volume is based on plenary presentations from Challenges of a Changing Earth, a Global Change Open Science Conference held in Amsterdam, The Netherlands, in July 2001. The meeting brought together about 1400 scientists from 105 countries around the world to describe, discuss, and debate the latest scientific understanding of natural and human-driven changes to our planet. It examined the effects of these changes on our societies and our lives and explored what the future might hold. The presentations drew upon global change science from an exceptionally wide range of disciplines and approaches. Issues of societal importance: the food system, air quality, the carbon cycle, and water resources were highlighted from both policy and science perspectives. Many of the talks presented the exciting scientific advances of the past decade of international research on global change. Several challenged the scientific community in the future: What are the visionary and creative new approaches needed for studying a complex planetary system in which human activities are intimately interwoven with natural processes? This volume aims to capture the timeliness and excitement of the science presented in Amsterdam. The plenary speakers were given a daunting task: to reproduce their presentations in a way that delivers their scientific messages accurately and in sufficient detail but at the same time reaches a very broad audience well beyond their own disciplines. Furthermore, they were required to do this in just a few pages. *The Dutch Drawings in the Teyler Museum: Artists born between 1575 and 1630* Teylers Museum, Michiel Plomp, 1997 **Paulus Potter** Amy Walsh, Paulus Potter, Edwin Buijsen, 1994 Catalogus bij een expositie over leven en werk van de Nederlandse schilder en tekenaar 1625-1654 Catalogus van de nederlandse teekeningen in het Rijksmuseum te Amsterdam: deel 6 . Dutch drawings of the seventeenth century in the Rijksmuseum, Amsterdam: Artists born between 1580 and 1600. 2 v Rijksmuseum (Netherlands), 1998 **The Glory of the Golden Age: Drawings and prints** Judikje Kiers, Fieke Tissing, Eppo Runia, Rijksmuseum (Netherlands).
