Salinas, Pascal Hügli, Daniel Jungen, 2025-05-27 In The Bitcoin Enlightenment billionaire entrepreneur Ricardo B Salinas who bought his first Bitcoin at 200 shares the hard won monetary wisdom passed down through four generations of his family Having survived Mexico's devastating hyperinflation of the 1980s Salinas understands firsthand how fiat money destroys wealth corrupts society and enslaves entire populations This groundbreaking book reveals Why saving in dollars euros or any fiat currency guarantees poverty How the 1694 founding of the Bank of England set humanity on a path to monetary destruction The hidden inflation tax that steals your time energy and future Why younger generations are priced out of housing stocks and the American Dream How governments and central banks create money from nothing and why it always ends badly The economic murder of God in 1971 that unleashed unlimited money printing Why Bitcoin's 21 million hard cap makes it humanity's first incorruptible money More than just theory this book provides a practical roadmap for individuals and businesses to protect and grow wealth in the Bitcoin age Learn how major corporations are already using Bitcoin as treasury reserves why governments may soon hold strategic Bitcoin reserves and how to position yourself for the greatest wealth transfer in history **The Violence of Recognition** Pinky Hota, 2023-11-28 The Violence of Recognition offers an unprecedented firsthand account of the operations of Hindu nationalists and their role in sparking the largest incident of anti Christian violence in India's history Through vivid ethnographic storytelling Pinky Hota explores the roots of ethnonationalist conflict between two historically marginalized groups the Kandha who are Adivasi tribal people considered

indigenous in India and the Pana a community of Christian Dalits previously referred to as untouchables Hota documents how Hindutva mobilization led to large scale violence culminating in attacks against many thousands of Pana Dalits in the district of Kandhamal in 2008 Bringing indigenous studies as well as race and ethnic studies into conversation with Dalit studies Hota shows that despite attempts to frame these ethnonationalist tensions as an indigenous population s resistance against disenfranchisement Kandha hostility against the Pana must be understood as anti Christian anti Dalit violence animated by racial capitalism Hota s analysis of caste in relation to race and religion details how Hindu nationalists exploit the singular and exclusionary legal recognition of Adivasis and the putatively liberatory anti capitalist discourse of indigeneity in order to justify continued oppression of Dalits particularly those such as the Pana Because the Pana lost their legal protection as recognized minorities Scheduled Caste upon conversion to Christianity they struggle for recognition within the Indian state s classificatory scheme Within the framework of recognition Hota shows indigeneity works as a political technology that reproduces the political economic and cultural exclusion of landless marginalized groups such as Dalits The Violence of Recognition reveals the violent implications of minority recognition in creating and maintaining hierarchies of racial capitalism

The Dialectics of Global Justice Bryant William Sculos, 2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i e cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment
