Martin, Kathryn J. Strom, 2019-03-01 Past research on gender and LGBTQ issues in K 12 and teacher education has primarily focused on identifying ways of fostering inclusive and affirmative school communities for non cis and or queer students and enabling learning contexts to promote academic learning Much of this work has attended to theorizing pedagogies and curricula conducive towards such an aim Yet despite legal advances for gender equity and LGBTQ rights in diverse global contexts and the increased visibility of LGBTQ issues in mainstream media non cis and queer individuals especially those of color continue to experience violence face housing

discrimination employment discrimination and the denial of service in public businesses In light of the numerous growing conservative movements to not only roll back legal advances for LGBTQ individuals but to also promote a culture of homophobia and transphobia scholars must attend to the myriad ways in which members of the school community can counter such efforts and how the multiple facets of the educative experience can be conceptualized beyond a paradigm that continues to marginalize gender diverse and LGBTQ individuals This volume *Exploring Gender and LGBTQ Issues in K12 and Teacher Education A Rainbow Assemblage* edited by Adrian D Martin and Kathryn J Strom provides examples of empirical inquiries and theorizations that explore how schools can function as more than safe academic environments for gender diverse and LGBTQ students The contributing authors attend to classrooms and educative contexts as spaces that promote the affirmative inclusion of not only LGBTQ students but other education stakeholders as well with the aim to dismantle homophobia transphobia misogyny and other hate based ideologies The volume serves as an insightful and useful resource for educators teacher educators and education researchers engaged in inquiry and pedagogy towards systems of schooling unencumbered by heteronormativity other hate based ideologies with implications for future professional practice

Difficult Subjects Badia Ahad-Legardy,OiYan A. Poon,2023-07-03 *Difficult Subjects Insights and Strategies for Teaching about Race Sexuality and Gender* is a collection of essays from scholars across disciplines institutions and ranks that offers diverse and multi faceted approaches to teaching about subjects that prove both challenging and often uncomfortable for both the professor and the student It encourages college educators to engage in forms of practice that do not pretend that teachers and students are unaffected by world events and incidents that highlight social inequalities Readers will find the collected essays useful for identifying new approaches to taking on the difficult subjects of race gender and sexuality The book will also serve as inspiration for academics who believe that their area of study does not allow for such pedagogical inquiries to also teach in ways that address difficult subjects Contributors to this volume span a range of disciplines from criminal justice to gender studies to organic chemistry and demonstrate the productive possibilities that can emerge in college classrooms when faculty consider identity as constitutive of rather than divorced from their academic disciplines Discussions of race gender and sexuality are always hot button issues in the college classroom whether they emerge in response to a national event or tragedy or constitute the content of the class over a semester long term Even seasoned professors who specialize in these areas find it difficult to talk about identity politics in a room full of students And many professors for whom issues of racial and sexual identity is not a primary concern find it even more challenging to raise these issues with students Offering reflections and practical guidance the book accounts for a range of challenges facing college educators and encourages faculty to teach with courage and conviction especially when it feels as though the world around us is crashing down upon our students and ourselves Catalog of Copyright Entries.
