of Christof's professional and academic achievements while many of the essays in Part B also reflect on Christof as a person. The editors all based at the Faculty of Law UP are colleagues and friends who worked closely with Christof. Frans Viljoen succeeded Christof as Director of the Centre for Human Rights. Christof was his doctoral supervisor, mentor and research collaborator. Charles Fombad worked with Christof at ICLA and took over as ICLA Director after Christof's passing. While Christof served on the Human Rights Committee, his colleague Ann Skelton serves on the Committee on the Rights of the Child. Magnus Killander worked closely with Christof as co-author and co-editor. Christof was also his doctoral supervisor. Feminist Activism in the Digital Era Asli Kotaman, Gülüm Şener, 2025-03-31. Focusing on various regions, this collection highlights a rich diversity of feminist activism. The ways feminist movements work, the tools they use and the outcomes they achieve vary with local dynamics and cultural contexts. In Pakistan, digital activists resist gender-based violence through social media; while in Mexico, protests against femicide resonate globally through digital platforms. In Turkey, feminist video activism builds collective memory, and in Poland, women organize online against abortion bans. This diversity showcases the adaptability, creative strategies and evolution of feminist movements as they navigate opportunities in the digital age. Feminist activism expresses itself in different voices and methods of resistance across regions, yet all these variations underline a global unity in the fight for equality. This collection demonstrates the expansive, dynamic nature of feminist movements worldwide and examines how local and global struggles intersect.

domain of premotoric simulation What we imagine into existence can be used for good or evil Imagination is therefore our greatest tool and weapon When applied to ourselves it allows us the possibility of reimagining and then transforming ourselves in light of second order desires This gives us the ability to choose to become a new kind of chooser in the future Other animals lack this second order Free Will although they can do otherwise they cannot want to become otherwise than they are making them amoral This book explores the idea that because humans in contrast have second order Free Will they can be moral or immoral Protest Politics Today Devashree Gupta,2023-05-03 Social movements play a vital and increasingly visible role in modern politics Headline grabbing demonstrations against authoritarian governments police brutality economic inequality and other grievances suggest that around the world social movements are seen as powerful catalysts of change In democracies as well as autocracies rich countries as well as poor citizens turn repeatedly to protest as a way of addressing a range of perceived social ills In this engaging and accessible book Devashree Gupta offers a thorough introduction to the study of social movements in these diverse settings examining their structures and operations to identify the ways in which political and social contexts shape how movements behave and what impacts they have Drawing on multiple theoretical approaches and contemporary case studies Gupta explores how movements think and act strategically learning from past interactions with authorities and the experiences of other movements to find innovative ways to challenge the status quo With suggestions for further reading and questions for class discussion throughout *Protest Politics Today* will be essential reading for students of social movements and contentious politics across the world **Third Sector**
