Irs Refund Status Deal:

Tele-tax Refund Responses , Tax administration advance tax refund program was a major accomplishment, but not problem free. ,2002 IRS and FMS should be commended for the extensive amount of work they accomplished in a short period of time to issue 86 million advance tax refund checks While there are bound to be implementation issues in any effort of this magnitude IRS responded to problems quickly so that only a small percentage of advance refund checks were affected Although taxpayers experienced problems in reaching IRS by telephone IRS probably did as good as it could considering the increased demand for assistance the number of staff available and the fact that the advance tax refund was a one time event that made it unrealistic to hire and train additional staff Although this report discusses various implementation issues related to the advance tax refund program and the rate reduction credit we are not recommending any specific corrective actions related to those issues Because our review focused on the advance tax refund program we have no basis for knowing whether the identified issues were unique to that program or more widespread and not knowing that we have no basis for recommending specific changes to IRS s policies or procedures The various observations we identified in the prior section of this report should be useful to IRS if faced with similar challenges in the future However IRS staff who were involved in planning and implementing the advance tax refund program including those aspects related to the rate reduction credit are in an even better position than either us or TIGTA to assess IRS s performance and suggest alternative approaches for handling the challenges involved in such an effort That kind of in house assessment while including the results of work done by us and TIGTA could delve into details that we did not such as IRS s testing of programming changes and its decision to not send notices to taxpayers reminding them of the amount of advance tax refund they received Taxpayer Information Publications ,2004 Reproducible Copies of Federal Tax Forms and Instructions United States. Federal Tax Refund Fraud United States. Congress. House. Committee on Ways and Means. Subcommittee on Oversight, 1995 **Practical Guide to Resolving Your Client's Tax Liabilities** Kenneth C. Weil, 2006 Explains and analyzes important issues and opportunities at the intersection of tax and bankruptcy law with an emphasis on solutions and strategies tax professionals can use to resolve their clients tax problems Written by Kenneth C Weil an a Horney and CPA with over 20 years experience on resolving tax disputes for taxpayers Dealing with Dysfunction Jorrit de Jong, 2016-09-13 How can we intervene in the systemic bureaucratic dysfunction that beleaguers the public sector De Jong examines the roots of this dysfunction and presents a novel approach to solving it Drawing from academic literature on bureaucracy and problem solving in the public sector and the clinical work of the Kafka Brigade a social enterprise based in the Netherlands dedicated to diagnosing and remedying bureaucratic dysfunction in practice this study reveals the shortcomings of conventional approaches to bureaucratic reform The usual methods have failed to diagnose problems distinguish symptoms or identify root causes in a comprehensive or satisfactory way They have also failed to engage clients professionals and midlevel managers in understanding and addressing the dysfunction that plagues them This book offers conceptual frameworks theoretical insights and practical lessons for dealing with the problem It sets a course for rigorous public problem solving to create governments that can be more effective efficient equitable and responsive to social concerns De Jong argues that successfully remedying bureaucratic dysfunction depends on employing diagnostics capable of distinguishing and dissecting various kinds of dysfunction The Anna Karenina principle applies here all well functioning bureaucracies are alike every dysfunctional bureaucracy is dysfunctional in its own way The author also asserts that the worst dysfunction occurs when multiple organizations share responsibility for a problem but no single organization is

primarily responsible for solving it This points to a need for creating and reinforcing distributed problem solving capacity focused on deep cross organizational learning and revised accountability structures Our best approach to dealing with dysfunction may therefore not be top down regulatory reform but rather relentless bottom up and cross boundary leadership and innovation Using fourteen clinical cases of bureaucratic dysfunction investigated by the Kafka Brigade the author demonstrates how a proper process for identifying defining diagnosing and remedying the problem can produce better outcomes
