The Fish In The Room M. Eweed,2025-11-03 You built the killer case flawless logic sexy data slides that could win a corporate beauty pageant And what happened Your customer picked your competitor Or your boss chose his own recycled dusty idea from 2019 Then They explained it with the dumbest reasons you ve ever heard So of course you thought I was two seconds away from calling them complete idiots But here s the twist they weren t being stupid they just ordered for themselves and your dish wasn t on the menu This isn t a normal business book It s what happens when you take behavioral science neuroscience psychology and real business strategy and put them together to answer one simple question how do you actually make people say yes and take action And it s not theory or jargon it s explained with real situations you already know you your boss your customers that colleague whose bad ideas keep getting approved and the real moves entrepreneurs used to turn small ideas into companies everyone now thinks were always going to succeed Because here s the problem what they taught you in business school was expensive fiction Every MBA program every management textbook every consultant

deck tells the same fairytale about decision making people spot a problem gather information weigh alternatives and then pick the optimal solution It sounds scientific It sounds professional But it s fantasy Real life doesn t work like that This book speaks neuroscience not business school fiction Your brain actually has two systems making decisions The first is the emotional side your ancient survival processor that s been keeping humans alive for millions of years It s insanely fast reacts in milliseconds and it operates completely outside your awareness It doesn t talk it doesn t do logic it just fires gut reactions based on feelings The second is the analytical side your slow deliberate articulate processor That s the voice in your head that sounds smart and professional It loves weighing options building arguments and writing long explanations for choices you already made Same brain two operating systems So picture it like this a giant ancient fish silent moving toward warm water away from danger following the group that s your emotional system Pure instinct Then picture a well dressed general articulate strategic making plans calculating incentives presenting frameworks speaking in full sentences about optimal outcomes That s your analytical system This whole book is your invitation to accept one uncomfortable truth humans don t buy spreadsheets And by spreadsheets I mean logic evidence numbers data all the rational firepower you thought would finally make them say yes Most of the time it doesn t Not your calculation Not your competitive matrix Not that slide deck you redesigned seventeen times Because what actually decides is the fish not the general So here s what s coming where behavioral economics and psychology finally meet Monday morning business decisions Turn the page and you ll see why your last pitch really failed and why it had nothing to do with the quality of your logic

The Watermark Sam Mills, 2025-02-11 A quirky literary love story like no other one that veers wildly from contemporary Britain to Soviet Russia to a bizarre but recognizable future from one of the UK's hottest young novelists Rachel and Jaime their story isn't simple It might not even be their story Augustus Fate a once lauded novelist and now renowned recluse is struggling with his latest creation But when Jaime and Rachel stumble into his remote cottage he spies opportunity imprisoning them inside his novel in progress Now the fledgling couple must try to find their way back home through a labyrinthine network of novels And as they move from Victorian Oxford to a utopian Manchester a harsh Russian winter to an AI dominated near future so too does the narrative of their relationship change time and again Together they must figure out if this relationship of so many presents can have any future at all *The Watermark* is a heart stopping exploration of the narratives we cling to in the course of a life and the tendency of the world to unravel them Kaleidoscopic and wildly imaginative it asks how can we truly be ourselves when Fate is pulling the strings

Horror Culture in the New Millennium Daniel W. Powell, 2018-11-23 *Horror Culture in the New Millennium* Digital Dissonance and Technohorror explores the myriad ways in which technology is altering the human experience as articulated in horrific storytelling The text surveys a variety of emerging trends and story forms in the field through both a series of critical essays and personal interviews with scholars editors authors and artists now creating and refining horror stories in the new millennium The project posits a rationale for the presence of technohorror as a defining concern in contemporary horror literature marking a departure from the monstrous and spectral traditions of the twentieth century in its depictions of frightful narratives marked by the qualities of plausibility mundanity and surprise as we tell stories about what it means to be human As our culture explores the dichotomies of the born made natural artificial and human computer all while subsumed within a paradigm shift predicated on the transition from the traditions of print to emerging digital communications practices these changes form the basis for horrific speculations in our texts and technologies Ultimately *Digital Dissonance* *Horror Culture in the New Millennium* explores that paradoxical human attraction for peering into the darkness as translated through our lived experiences in an era of rapidly evolving technologies

The Complete Idiot's Guide to Social Media Marketing, 2nd Edition Jennifer Abernethy, 2012-04-03 *The Complete Idiot's Guide to Social Media Marketing* Second Edition covers cutting edge techniques for small and large businesses alike Ask the Author Q How has social media marketing changed business and personal lives A The playing field has been leveled for business No longer do you need a 6 or 7 figure budget to reach people around the country or globe for that matter Personally many lives have been affected Many people more connected businesses have grown because of the connections TV and singing careers have been launched

money has been raised for charity books have been marketed and purchased and so on Q What has been the most challenging part of utilizing social media A I think the learning curve With all of these sites they come with no directions and no LIVE phone number Q What has worked the best and worst thus far A Facebook because of its broad reach really has worked for me but many would argue that YouTube works the best particularly since it is the search engine of choice with the 11-34 age group Q How can a person searching for a job use social media marketing A So many ways They need to be on LinkedIn with a professional looking profile photo and contact information They could also utilize video to begin sharing their expertise Candidates need to stand out in a crowd of millions so if they say sent in a video introducing themselves and a video follow up email that would wow them Q What is the newest thing since Twitter A I believe companies and individuals are starting to utilize audio for creating their own iTunes channel and also location based social media like FourSquare I personally am not sold on location based services as of yet from a safety point of view but for retailers it can be a good thing I believe video is going to explode in popularity in 2011 for the 35 market as well They just need to get comfortable being on camera
