Geographical Approach Olivier Etcheverria, 2020-04-09 This book analyzes the way in which restaurants are geographical objects that reveal locational logics and strategies and how restaurants weave close relationships with the space in which they are located Originating from cities restaurants feed off the urban environment as much as they feed it participating in the qualification differentiation and hierarchy of cities Indeed restaurants in both the city and the countryside maintain a dialogical relationship with tourism They can be vital players in the establishment of emerging types of gourmet tourism sometimes even constituting as gourmet tourist destinations in their own right They participate in the establishment of necessary conditions for local development Some restaurants are even praised as historic sites recognized as part of the local heritage which reinforces their localization and their identity as a gourmet tourist destination **Le restaurant, une**

approche géographique Olivier Etcheverria, 2019-10-01 Cet ouvrage analyse la manière dont les restaurants sont des objets géographiques qui revêtent des logiques et des stratégies de localisation et tissent des rapports troits avec leur espace d'implantation Dans en ville les restaurants se nourrissent de l'urbain autant qu'ils l'alimentent et participent à la qualification la différenciation et la hiérarchisation des villes En ville comme la campagne les restaurants entretiennent des relations dialogiques avec le tourisme tiennent une place dans l'émergence de formes de tourisme gourmand et constituent parfois même des destinations touristiques gourmandes partiellement Ils participent à la mise en place des conditions nécessaires au développement local Certains enfin sont désignés comme des monuments historiques et reconnus comme faisant partie du patrimoine ce qui renforce leur localisation et leur identification comme destination touristique gourmande **Official**
