Nature Friendly Land Use Practices At Multiple Scales Environmental Law Institute:

Nature-friendly Land Use Practices at Multiple Scales Rebecca Lynn Kihlslinger, James M. McElfish, 2009 This unique book is organized around eight detailed case studies of private land developers local governments and public agencies that have worked across jurisdictional and ecological boundaries to effectively address habitat conservation The book includes two essays by leading conservation biologists who link planning at scale with sound land use decisions Book Jacket

Untying the Land Knot Xiaofang Shen, Xiaolun Sun, 2012-06-15 This book argues that access to industrial and commercial land is crucial to investment but sustainable development requires government policy measures that balance investors needs with broader public interests Urban Wildlife Conservation Robert A. McCleery, Christopher E.

Moorman, M. Nils Peterson, 2014-11-11 In the past wildlife living in urban areas were ignored by wildlife professionals and urban planners because cities were perceived as places for people and not for wild animals Paradoxically though many species of wildlife thrive in these built environments Interactions between humans and wildlife are more frequent in urban areas than any other place on earth and these interactions impact human health safety and welfare in both positive and negative ways Although urban wildlife control pest species pollinate plants and are fun to watch they also damage property spread disease and even attack people and pets In urban areas the combination of dense human populations buildings impermeable surfaces introduced vegetation and high concentrations of food water and pollution alter wildlife populations and communities in ways unseen in more natural environments For these ecological and practical reasons researchers and managers have shown a growing interest in urban wildlife ecology and management This growing interest in urban wildlife has inspired many studies on the subject that have yet to be synthesized in a cohesive narrative Urban Wildlife Theory and Practice fills this void by synthesizing the latest ecological and social knowledge in the subject area into an interdisciplinary and practical text This volume provides a foundation for the future growth and understanding of urban wildlife ecology and management by Clearly defining the concepts used to study and describe urban wildlife Offering a cohesive understanding of the coupled natural and social drivers that shape urban wildlife ecology Presenting the patterns and processes of wildlife response to an urbanizing world and explaining the mechanisms behind them and Proposing means to create physical and social environments that are mutually beneficial for both humans and wildlife **Coordinating Climate Change**

Adaptation as Risk Management J. B. Ruhl, Hiba Baroud, Robin Kundis Craig, 2022-06-15 *Environmental Law Reporter*, 2002 Mining Law and Governance in Africa Victoria R. Nalule, 2023-06-09 This book explores the various issues that

characterise the African mining sector drawing examples from different African countries and regional organisations Although there is a massive literature on the subject some issues have been neglected including the crucial role of digitalisation and technological advancement in resolving the environmental and social challenges faced in Artisanal and Small Scale Mining ASM deep sea mining mining contract negotiations and modernising mining laws to reflect the increasing

role of critical minerals to mention but a few Therefore the book unpacks the critical issues associated with the mining sector explicitly reflecting on the practical solutions needed to address the challenges in the African mining sector This book uniquely analyses and adds flavour to international mining s fundamental concepts by describing a simulated annealing based approach appropriate for complex mining projects in Africa Book contributors comprise of academics from different universities including professors practitioners government policymakers NGO executives and a variety of different experts This multidisciplinary book will be of interest to African policymakers governments academics industry professionals energy and mining institutions international organisations universities across the globe and companies
