American Indian Art Magazine , 1995 *A New Deal for Navajo Weaving* Jennifer McLerran, 2022-05-10 A New Deal for Navajo Weaving provides a detailed history of early to mid twentieth century Din weaving projects by non Natives who sought to improve the quality and marketability of Navajo weaving but in so doing failed to understand the cultural significance of weaving and its role in the lives of Din women By the 1920s the durability and market value of Din weavings had declined dramatically Indian welfare advocates established projects aimed at improving the materials and techniques Private efforts served as models for federal programs instituted by New Deal administrators Historian Jennifer McLerran details how federal officials developed programs such as the Southwest Range and Sheep Breeding Laboratory at Fort Wingate in New Mexico and the Navajo Arts and Crafts Guild Other federal efforts included the publication of Native natural

dye recipes the publication of portfolios of weaving designs to guide artisans and the education of consumers through the exhibition of weavings aiding them in their purchases and cultivating an upscale market McLerran details how government officials sought to use these programs to bring the Din into the national economy instead these federal tactics were ineffective because they marginalized Navajo women and ignored the important role weaving plays in the resilience and endurance of wider Din culture *Navajo Spoons* Cindra Kline,2001 Illustrates the development of religious art in northern New Mexico over a period of 150 years through more than three hundred santos *Navajo Times* ,1972 **Navajo Silversmiths** Washington Matthews,2022-05-28 In *Navajo Silversmiths* Washington Matthews offers a comprehensive exploration of the artistry and craftsmanship of Navajo silversmithing shedding light on its cultural significance and historical evolution The book combines meticulous ethnographic research with rich visual documentation capturing the intricate techniques and symbolic meanings behind the silversmiths creations Matthews narrative style is both analytical and appreciative placing the art form within the broader context of Native American traditions and social structures thereby highlighting its role in cultural identity and economic exchange Washington Matthews a prominent figure in the field of anthropology and ethnology dedicated much of his career to understanding Indigenous cultures of the American Southwest His intimate familiarity with Navajo life stemming from years of fieldwork and personal relationships with the community imbues the text with authenticity and respect Matthews was not only an observer but also an advocate for the preservation of Native arts which greatly influenced his motivation to document and celebrate the silversmiths craft *Navajo Silversmiths* is a vital read for anyone interested in Native American culture art history or anthropology Matthews insightful observations and detailed accounts provide invaluable perspectives that resonate with scholars and general readers alike making it an essential addition to the libraries of those seeking to appreciate the depth and beauty of Navajo artistry **Reassessing Hallmarks of Native Southwest Jewelry** Pat Messier,Kim Messier,2014 The intensive research undertaken for this valuable book properly identifies forty five Native American silversmiths and their hallmarks found on Southwest jewelry Most of the marks date prior to the 1970s and some as early as the 1920s along with the marks of traders guilds and the government This fascinating read also provides the stories of the artists and institutions represented by these marks Over 275 color and black and white images illustrate the marks in situ on the jewelry along with images of artists trading posts and guild ads The text explains why and when these marks were used Among the important Navajo Hopi and Pueblo silversmiths whose lives and artworks are explored are Grant Jenkins Fred Peshlakai Juan De Dios Da Pah Awa Tsireh and others The majority of the talented Indian silversmiths represented here left their homes on the reservation in the early twentieth century to work in cities and tourist venues The profiles presented also feature a handful of contemporary artists who are recognized as master silversmiths **Art of the Navajo Silversmith** Gertrude Hill Muir,1937 *Navajo Silversmiths* Washington Matthews, Among the Navajo Indians there are many smiths who sometimes forge iron and brass

but who work chiefly in silver When and how the art of working metals was introduced among them I have not been able to determine but there are many reasons for supposing that they have long possessed it many believe that they are not indebted to the Europeans for it Doubtless the tools obtained from American and Mexican traders have influenced their art Old white residents of the Navajo country tell me that the art has improved greatly within their recollection that the ornaments made fifteen years ago do not compare favorably with those made at the present time and they attribute this change largely to the recent introduction of fine files and emery paper At the time of the Conquest the so called civilized tribes of Mexico had attained considerable skill in the working of metal and it has been inferred that in the same period the sedentary tribes of New Mexico also wrought at the forge From either of these sources the first smiths among the Navajos may have learned their trade but those who have seen the beautiful gold ornaments made by the rude Indians of British Columbia and Alaska many of whom are allied in language to the Navajos may doubt that the latter derived their art from a people higher in culture than themselves

The Art of the Navajo Silversmith Gertrude Hill Muir, 1937 The Navajo and Pueblo Silversmiths John Adair, 1944 Probably no Native American handicrafts are more widely admired than Navajo weaving and Navajo and Pueblo silver work This book which is now in its third large printing contains the most important and complete account of Indian jewelry fashioned by the Navajo the Zuni the Hopi and other Pueblo peoples With the care of a meticulous and thorough scholar the author has told the story of his several years investigation of jewelry making among the Southwestern Indians says The Dallas Times Herald So richly decorative are the plates he uses that the conscientious narrative is surrounded by an atmosphere of genuinely exciting visual experience John Adair is a trained ethnologist who has lived and worked among these Indians To prepare his book Mr Adair made an exhaustive examination of the principal museum collections of Navajo and Pueblo silver work both early and modern in Santa Fe Colorado Springs Chicago New York and Philadelphia He visited trading posts in the Indian country and examined and photographed silver on the pawn racks and in important private collections He lived for a time among the Navajo watched them make their jewelry and actually learned to work silver himself in the hogan of one of the leading artisans Tom Burnside Many of the photographs he made at the time are used as illustrations in this book He spent months among the Indians in New Mexico and Arizona and became personally acquainted with many of their silversmiths Later as field worker for the Indian Arts and Crafts Board he studied the economics of Navajo and Pueblo silversmithing and still later he became manager of the Navajo Arts and Crafts Guild a tribal enterprise The Navajo and Pueblo Silversmiths provides a full history of the craft and the actual names and localities of the pioneer craftsmen who introduced the art of the silversmith to their people Despite its present high stage of development with its many subtle and often exquisite designs the art of working silver is not an ancient one among the Navajo and Pueblo

Indians There are men still living today who remember the very first silversmiths Mr Adair gives full details as he observed them of the methods and techniques of manufacture over a primitive forge with homemade tools He tells both of the fine pieces made for trade among the Indians themselves and of the newer cheaper types of jewelry produced for sale to tourists He discusses standards and qualities of Indian silver and describes the work of the Indian schools in helping preserve traditional design in the fine silver of today His excellent photographs of some of the most notable pieces old and new provide examples for evaluation This volume therefore will serve the layman the ethnologist and the dealer alike as a guide to proper values in Indian silver jewelry and will provide the basis for authoritative knowledge and appreciation of a highly skilled creative art **The Art of the Navajo Silversmith** Gertrude Frances Hill,1937 Navajo Silver Arthur

Woodward,1971 Presents a comprehensive view of the four major influences on Navajo silver design showing how the early Navajo silversmiths adapted art forms of European settlers and Indians in the eastern United States as well as those of the Spanish and Mexican colonists in the Southwest **The Navajo and Pueblo Silversmiths** John 1913-1997
