Apple in China Patrick McGee, 2025-05-13 THE NEW YORK TIMES BESTSELLER Absolutely riveting Peter Frankopan author of The Silk Roads Disturbing and enlightening Chris Miller author of Chip War Hugely important Rana Foroohar author of Makers and Takers A once in a generation read Robert D Kaplan author of Waste Land As Trump wages a tariff war with China seeking to boost domestic electronics manufacturing this book offers an unparalleled insight into why his strategy is embarrassingly naïve Apple isn't just a brand it's the world's most valuable company and creator of the 21st century's defining product The iPhone has revolutionized the way we live work and connect But Apple is now a victim of its own success caught in the middle of a new Cold War between two superpowers On the brink of bankruptcy in 1996 Apple adopted an outsourcing strategy By 2003 it was lured to China by the promise of affordable ubiquitous labour As the iPod and iPhone transformed Apple's fortunes their sophisticated production played a seminal role in financing training supervising and supplying Chinese manufacturers skills Beijing is now weaponizing against the West Investigative journalist Patrick McGee draws on 200 interviews with former Apple executives and engineers to reveal how Cupertino's choice to anchor its supply chain in China has increasingly made it vulnerable to the regime's whims Both an insider's historical account and a cautionary tale Apple in China is the first history of Apple to go beyond the biographies of its top executives and set the iPhone's global domination within an increasingly fraught geopolitical context **ICEMME 2022** Nikolaos Freris, Qinghai Li, Harsh Kumar, 2023-02-15 It is our great pleasure to have you at the 2022 4th International Conference on Economic Management and Model Engineering ICEMME 2022 which was held in Nanjing China from November 18th to 20th virtual event It is an international forum for academic communications between experts and scholars in the fields of economic management and model engineering The main objective of ICEMME 2022 is to provide a platform to deliberate latest developments and future directions in the fields of economic management and model engineering The conference provided opportunities for the delegates to exchange research ideas and scientific information and established business or research relations for all participants to find global partners for future collaboration *Maisy Hayes Is Not For Sale* Allayne L. Webster, 2025-09-02 From the award winning author of Selfie comes the story of Maisy whose life is shaped by financial hardship **Insane Mode** Hamish McKenzie, 2018 Tells the story of Tesla and argues that under Elon Musk's insane mode leadership the company is bringing an end to the era of gasoline powered transportation Technology and Oligopoly Capitalism Luis Suarez-Villa, 2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America's social economic and political reality Technology oligopolies are the most powerful socioeconomic entities in America From cradle to grave the decisions they make affect the most intimate aspects of our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is

more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished

Technology and Oligopoly Capitalism s critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America

Comparative Advertising Fred Beard, 2020-07-06 From auto insurance to ready to eat soups and satellite TV services both national and local advertisers in the United States and increasingly around the world invest a great deal of time and money on ads and campaigns in which they directly identify their competitors or refer indirectly to the other guys Yet business decision makers and advertising creative professionals have long believed that creating successful comparative advertising can be extraordinarily difficult Many have discovered that a strategic or tactical misstep can easily lead to a disaster such as negative responses from consumers a successful legal challenge from one or more competitors or the escalation of hostilities into an ongoing and damaging comparative advertising war Comparative Advertising History Theory and Practice offers scholars interested in why many business decision makers believe they can win our loyalty by running down a competitor as well as anyone who plans creates or pays for advertising a thorough and timely synthesis of the vast body of historical research theory and professional insights devoted to one of advertising s most frequently debated message tactics The overall goal of this book is to discover answers to a simple question Why do so many advertisers often rely on a message tactic that research and professional experience confirms they frequently regret using

New Venture Creation Paul Burns, 2023-12-30 Structured around the author s tried and tested New Venture Creation framework this textbook encourages practical learning enabling you to launch and develop your business Broken down into three phases Research Business model development Launch the

book provides a systematic approach which tells you everything you need to know and most importantly everything you need to do to start a new venture You will learn how organisations and entrepreneurs address issues via real life case insights and quotes while fictional case studies are presented to explore how you might choose ways forward in your entrepreneurial journey The popular and effective Workbook which enables you to work through your thoughts and ideas on business development and construct a profile of your new venture is now presented in a digital format A new Digital links booklet directs to company websites and interviews with entrepreneurs and these resources are designed so that they can be used concurrently with the book This edition includes new material on the importance of anticipating new challenges and the need for re strategizing and building resilience while sustainability and diversity have been foregrounded in a re examination of the case studies New Venture Creation is the essential textbook for preparing for real life entrepreneurial experience accessible practical and grounded in academic insight

Using iPhones, iPads, and iPods Matthew Connolly, Tony Cosgrave, 2014-10-28 Apple Inc has sold more than 500 million iPhones iPads and iPodTouches Library patrons are increasingly coming to libraries with the expectation that their Apple devices will work flawlessly with library services or that they can find an iPad to use at the library if they don t have one of their own Libraries and librarians today are expected to be adept with the latest technology and to be able to apply it to popular use as well as scholarly research Using iPhones and iPads A Practical Guide for Librarians offers library professionals a clear path to Apple readiness The authors a librarian and a software developer at a prominent research library combine their experience in library public services and mobile technology to provide easy to follow step by step instructions to help you get up to speed on Ensuring that your library website and online resources are iDevice friendly Creating a custom app for your library and making it available in iTunes Starting an iPad lending program Using iDevices for librarianship and library work Assessing and advertising iDevice programs Acquiring configuring and deploying iDevices to users Recommended apps that can help you and your users Whether you work at a large academic institution or a small public library this book will show you how to become iDevice literate quickly and easily

Billboard , 2009-08-15 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

International Business Ehud Menipaz, Amit Menipaz, 2011-03-17 What is international business How does it differ from local or national business What are the

fundamental challenges and emerging trends in international business What is the impact of globalization corporate social responsibility and the ever expanding use of digital technology on corporate strategies and executive decisions International Business Theory and Practice addresses these questions by providing the student with a broad overview of the subject while guiding readers through the practical issues and context of international business with the use of a range of examples cases and discussion questions drawn from around the world Current critical issues in international business are analysed and explored corporate social responsibility in an era of unprecedented globalization the rise of the global entrepreneur and the democratization of competition worldwide and applications of technology in a digital economy Key Features Unpacks the complex issues facing both multi national enterprises MNE and international small and medium enterprises SME Contains a full range of learning features including international case studies explanations of key terms a glossary and annotated further reading

International Tax at the Crossroads Craig Elliffe, 2023-12-11 In light of the significant transformations affecting international tax in recent years this book offers in depth examinations on a series of key issues on the taxation of cross border transactions Craig Elliffe brings together a wealth of acclaimed legal academics to consider how the Inclusive Framework IF is responding to the ways in which highly digitalised businesses operate

Mobile Telecommunications in a High-Speed World Peter Curwen, Jason Whalley, 2016-07-22 Mobile Telecommunications in a High Speed World tells the story of 3G and higher speed mobile communication technologies Over ten years have passed since the first third generation 3G licences were awarded following debates about the merits of auctions versus beauty contests then nothing much happened More licences were issued a few roll outs commenced and everyone began to think it had all been a horribly expensive mistake That may still turn out to be the case but in the meantime there have been massive developments in terms of the number of licences and launches worldwide in the range of services that can be accessed in the range of devices that can be used to access them in operator strategies etc Even the technology has improved considerably with 4G now under discussion Much of this story has been chronicled largely on the Internet but the information is in tens of thousands of bits and pieces and a large part of it is either misleading or just plain wrong Here Peter Curwen and Jason Whalley introduce the outcomes of research that has involved the compilation of a unique database which details every licence and launch worldwide involving 3G The authors discuss the structure of the industry and the strategic behaviour of operators as well as the social consequences of the spread of 3G They examine the role of new entry upon competition and present analysis of the main operators involved the development of handsets and especially smartphones A number of country case studies are included This comprehensive and up to date volume includes a number of country studies and is written by two of the world's foremost researchers on this industry Mobile Telecommunications in a High Speed World will serve the needs of students academics and those involved or contemplating involvement with the telecoms industry Why pay thousands of dollars to consultancies to separate the wheat from the chaff with respect to 3G when you can read this book Successful Web

Retailing Bob Vereen, Dennis Stillwell, 2010-11 Most retailers are not taking full advantage of the opportunities the Internet provides them Their web sites aren't kept up to date and are changed infrequently their sites do not generate enough sales they are not using links or social media effectively and most have not employed a positive search engine strategy or embarked on an e-mail marketing program This book is a how to handbook that explains in simple terms what needs to be done and how to do it if retailers want to make their web sites a more effective advertisement for their stores and an improved communication platform It also explains what retailers need to do if they wish to increase or begin making web sales Web sites of a variety of retailers illustrate many of the techniques being employed by other merchants with web addresses so the sites can be explored more fully The book's 14 chapters explain why retailers need a better web site and how they can be improved Each self-standing chapter is a how to manual including the following How to Establish a Search Engine Strategy Analyzing Web Statistics and using them Are You Taking Advantage of Links What You Should Know about Social Media How to Use Social Media What You Should Know about Blogs How Mobile Computing is Changing Things Will E-mail Marketing Work for You Upgrading and Improving Your Current Web Site How to Make More Sales from Your Site The book includes many other web resources that can be accessed by readers who wish to learn more about any of the topics presented Web site examples include those of a variety of retailers ranging from hardware stores to drug stores and apparel merchants plus a list of other web sites that readers can review based on summary descriptions of them Bob Vereen one of the authors is a marketing and merchandising guru with 60 years experience in the hardware industry while Dennis Stillwell the co-author has been a pioneer and leader in Internet and web advertising developments Together their experience blends practical retailing knowledge with web expertise all written for the average retailer not for the nerds of the world Dennis Stillwell brings his vast experience in marketing and advertising to this book especially his marketing savvy using the Internet He is considered one of the early pioneers in Internet advertising having been on the Internet in the early years before the creation of the Worldwide Web
