Native American Architecture:

Native American Architecture Peter Nabokov, Robert Easton, 1990-10-25 For many people Native American architecture calls to mind the wigwam tipi iglu and pueblo Yet the richly diverse building traditions of Native Americans encompass much more including specific structures for sleeping working worshipping meditating playing dancing lounging giving birth decision making cleansing storing and preparing food caring for animals and honoring the dead In effect the architecture covers all facets of Indian life The collaboration between an architect and an anthropologist Native American Architecture presents the first book length fully illustrated exploration of North American Indian architecture to appear in over a century Peter Nabokov and Robert Easton together examine the building traditions of the major tribes in nine regional areas of the continent from the huge plank house villages of the Northwest Coast to the moundbuilder towns and temples of the Southeast to the Navajo hogans and adobe pueblos of the Southwest Going beyond a traditional survey of buildings the book offers a broad clear view into the Native American world revealing a new perspective on the interaction between their buildings and culture Looking at Native American architecture as more than buildings villages and camps Nabokov and Easton also focus on their use of space their environment their social mores and their religious beliefs Each chapter concludes with an account of traditional Indian building practices undergoing a revival or in danger today The volume also includes a wealth of historical photographs and drawings including sixteen pages of color illustrations architectural renderings and specially prepared interpretive diagrams which decode the sacred cosmology of the principal house types

Contemporary Native American Architecture Carol Herselle Krinsky, 1996 Why during the past thirty years has there been a dramatic change in architecture by and for Native Americans How does it reflect the revival of language and the renewal and invention of dance music and other performance and the remarkable burst of creativity in Native American novels and poetry And since architecture requires technical expertise and money how does this change reflect alterations in the economic legal and political situation of American Indians in the past decades At no other time since the European invasions have the Native nations been as determined to set their own agendas for building or been as successful in reaching their architectural goals They now claim authority in planning what they need for modern life office buildings schools clinics religious and community structures urban cultural centers houses and museums even commercial buildings and casinos Those agendas often include strategies for making sure that the buildings are culturally appropriate or focus on collective decisions that embody community values brought from the past to the present In Contemporary Native American Architecture Carol Herselle Krinsky examines the historical and legal background of this movement of cultural regeneration through the medium of architecture and records responses of Native Americans to ever changing cultural situations
