Natural Resource Conservation Daniel D. Chiras, John P. Reganold, 2010 Intended for those interested in gaining a basic knowledge of natural resources and conservation *Principles of Sustainable Living* Richard R. Jurin, 2012-01-30 The e book for *Principles of Sustainable Living* is available at a reduced price and allows readers to highlight and take notes throughout the text When purchased through the Human Kinetics site access to the e book is immediately granted when your order is received *The Rural Midwest Since World War II* J. L. Anderson, 2014-02-01 J L Anderson seeks to change the belief that the Midwest lacks the kind of geographic coherence historical issues and cultural touchstones that have informed regional identity in the American South West and Northeast The goal of this illuminating volume is to demonstrate uniqueness in a region that has always been amorphous and is increasingly so Midwesterners are a dynamic people who shaped the physical and social landscapes of the great midsection of the nation and they are presented as such in this volume that offers a general yet informed overview of the region after World War II The contributors most of whom are Midwesterners by birth or residence seek to better understand a particular piece of rural America a place too often caricatured misunderstood and ignored However the rural landscape has experienced agricultural diversity and major shifts in land use Farmers in the region have successfully raised new commodities from dairy and cherries to mint and sugar beets The region has also been a place where community leaders fought to improve their economic and social well being women redefined their roles on the farm and minorities asserted their own version of the American Dream The rural Midwest is a regional melting pot and contributors to this volume do not set out to sing its praises or by contrast assume the position of Midwestern modesty and self deprecation The essays herein rewrite the narrative of rural decline and crisis and show through solid research and impeccable scholarship that rural Midwesterners have confronted and created challenges uniquely their own

Fam, Michael O'Rourke, 2020-11-01 Unlike other volumes in the current literature this book provides insight for interdisciplinary and transdisciplinary researchers and practitioners on what doesn't work. Documenting detailed case studies of project failure matters not only as an illustration of experienced challenges but also as projects do not always follow step by step protocols of preconceived and theorised processes. Bookended by a framing introduction by the editors and a conclusion written by Julie Thompson Klein each chapter ends with a reflexive section that synthesizes lessons learned and key take away points for the reader. Drawing on a wide range of international case studies and with a strong environmental thread throughout the book reveals a range of failure scenarios for interdisciplinary and transdisciplinary projects including Projects that did not get off the ground Projects that did not have the correct personnel for specified objectives Projects that did not reach their original objectives but met other objectives Projects that failed to anticipate important differences among collaborators. Illustrating causal links in real life projects this volume will be of significant relevance to scholars and practitioners looking to overcome the challenges of conducting interdisciplinary and transdisciplinary research. **World**

Atlas of Mangroves Mark Spalding, Mami Kainuma, Lorna Collins, 2010-09-23 Published with ISME ITTO and project partners FAO UNESCO MAB UNEP WCMC and UNU INWEH This atlas provides the first truly global assessment of the state of the world's mangroves.
