Natural Supernatural Things Basilius Valentinus:

Of Natural and Supernatural Things Basilius Valentinus, 2019-11-22 In *Of Natural and Supernatural Things* Basilius Valentinus intricately weaves a tapestry of alchemical wisdom that reflects the Renaissance's thirst for knowledge transcending the natural world. The text is laden with a rich blend of allegorical writing and practical instruction, demonstrating a meticulous examination of both natural phenomena and the metaphysical, thereby revealing the interconnectedness of the material and spiritual realms. Valentinus employs a didactic tone infused with esoteric terminology and symbolic imagery, forming a compelling dialogue between the reader and the ancient wisdom he seeks to revive amidst the evolving scientific landscape of his time. Basilius Valentinus, often shrouded in historical ambiguity, is believed to have been a German alchemist and philosopher whose works encapsulate the essence of Renaissance humanism and the revival of classical texts. His deep engagement with the alchemical tradition, as well as his possible connections with significant figures such as Paracelsus, likely influenced his exploration of the dualities of existence, culminating in this seminal work that seeks to illuminate the path to both corporeal and spiritual transformation. For readers drawn to the mystical realms of alchemy and the philosophical inquiries of the Renaissance, *Of Natural and Supernatural Things* is an indispensable exploration. It invites contemplation of the profound relationship between humanity and the cosmos, encouraging seekers of wisdom to delve into the hidden truths that lie beneath the surface of reality.

Of Natural and Supernatural Things Basilius Valentinus, 2014-10-30 The Basil Valentine writings provide twelve keys, a widely reproduced sequence of alchemical operations encoded allegorically in words to which images have been added. The first Basil Valentine book to discuss the keys is *Ein kurtz summarischer Tractat von dem grossen Stein der Uralten*. A Short Summary Tract Of the great stone of the ancients 1599. The first part of the book is a discussion of general alchemical principles and advice about the philosopher's stone. The second half of *Ein kurtz summarischer Tractat* under the subtitle *The Twelve Keys* contains twelve short chapters. Each chapter or key is an allegorical description of one step in the process by which the philosopher's stone may be created. With each step, the symbolic names, Deckname or code name used to indicate the critical ingredients, are changed just as the ingredients themselves are transformed. The keys are written in such a fashion as to conceal as well as to illuminate; only a knowledgeable reader or alchemical adept was expected to correctly interpret the veiled language of the allegorical text and its related images.

Of Natural and Supernatural Things Basilius Valentinus, 2015-03-31 Because I have at this present undertaken to write of the first Tincture, the Root of Metals and Minerals, and to inform you of the Spiritual Essence, how the Metals and Minerals are at first spiritually conceived and born corporally, it will be necessary first of all to utter and to acquaint you by a speech that all things consist of two parts: that is, Natural and Supernatural, what is visible, tangible, and hath form or shape that is natural, but what is intangible without form and spiritual that is supernatural and must be apprehended and conceived by Faith, such is the Creation, and especially the Eternity of God without end, immensurable and

incomprehensible for Nature cannot conceive nor apprehend it by its humane reason This is supernatural what Reason cannot apprehend but must be conceived by Faith this is a Divine matter and belongs to Theology which judgeth Souls Moreover there appertains to supernatural things the Angels of the Lord having clarified Bodies doing that by the permission of their Creator which is impossible for any other Creature to do their Works being concealed from the Eyes of the World and so likewise are the Works of the Infernal Spirits and Devils unknown which they do by the permission of the most High God But above all the great Works of God are found and acknowledged to be supernatural not to be scanned and comprehended by Humane Imaginations such is in especial the great Grace and Mercy of God which he bestows upon Mankind out of his great Love which indeed no man can apprehend or know and other great and wonderful works which he hath manifested divers manner of wayes by Christ our Saviour and Redeemer for the confirmation of his Omnipotence and Glory As when he raised Lazarus from the dead Jairus his Daughter the Ruler of the Synagogue and the Widows Son of Naim He made the Dumb to speak the Deaf to hear and the Blind to see all which are supernatural and Magnalia Dei so also was his Conception Resurrection Descension and Ascension into Heaven too deep and mysterious for Nature all which is only to be obtained by Faith
