Maya Angela Smith

Ne Me Quitte Pas For Piano:

Ne me quitte pas Maya Angela Smith, 2025-01-24 In 1959 Belgian singer songwriter Jacques Brel wrote and performed *Ne me quitte pas* Don't leave me a visceral and haunting plea for his lover to come back As a teenager Maya Angela Smith was so captivated by Nina Simone's powerful 1965 cover of the song that it inspired her to be a French professor In *Ne me quitte pas* Smith follows the classic song's long and varied journey from Brel's iconic 1966 performance on French television to Simone's cover to Shirley Bassey's English language version *If You Go Away* to its contemporary manifestations in popular culture Throughout Smith shows that as the song travels across languages geographies genres and generations it accumulates shifting artistic and cultural significance as each listener creates their own meaning **Music and**

Translation Lucile Desblache, 2019-06-04 This book explores how transformations and translations shape musical meanings developments and the perception of music across cultures Starting with the concept of music as multimodal text the author understands translation as the process of transferring a text from one language verbal or not into another interlingually intralingually or intersemiotically as well as the products that are derived from this process She situates music and translation within their contemporary global context examining the tensions between local and global cosmopolitan and national and universal and specific settings to arrive at a celebration of the translational power of music and an in depth study of how musical texts are translated This book will be of interest to translation studies scholars who want to broaden their horizons as well as to musicians and music scholars seeking to understand how cultural exchange and dissemination can be driven by translation *The Song Remains the Same* Andrew Ford, Anni Heino, 2019-12-02 An illuminating history of

the song for every kind of music lover Often today the word song is used to describe all music A free jazz improvisation a Hindustani raga a movement from a Beethoven symphony apparently they're all songs But they're not From Sia to Springsteen Archie Roach to Amy Winehouse a song is a specific musical form It's not so much that they all have verses and choruses though most of them do but that they are all relatively short and self-contained they have beginnings middles and ends they often have a single point of view message or story and crucially they unite words and music Thus a Schubert song has more in common with a track by Joni Mitchell or Rihanna than with one of Schubert's own symphonies *The Song Remains the Same* traces these connections through seventy-five songs from different cultures and times love songs anthems protest songs lullabies folk songs jazz standards lieder and pop hits When You Wish Upon a Star to We Will Rock You Jerusalem to Jolene Unpicking their inner workings makes familiar songs strange again explaining and restoring the wonder joy or possibly loathing the reader experienced on first hearing As much about singing musicianship and recording as it is about songwriting this eclectic ride through a unique choice of songs everyone will argue for alternatives is cleverly curated and littered with intriguing details about the creators and their times filled with loving cross references to other songs and deft musical analysis I defy anyone not to leap online to listen to the unfamiliar or re-listen to old favourites in light of new detail
