Near Death Experiences and Sacred Scripture Douglas Charles Hodgson, 2024-08-30 Near Death Experiences and Sacred Scripture The Parallel Messaging examines striking similarities and parallels between messaging found in accounts of those who have written about their near death experiences and in accounts contained in the sacred scriptures of the world s great religions This symmetrical and mutually reinforcing messaging is timeless in nature and is arguably more relevant today than in any previous period in human history as humanity continues to face existential threats to its survival In an era of rampant materialism and consumerism armed conflict environmental degradation species extinction global warming as well as an obsessive preoccupation with self rather than others and a devaluation of the life s sanctity It s timely to spark a revived interest in and knowledge of God and the afterlife and in seeking answers to life s larger religious spiritual philosophical and metaphysical questions This book will provide assurance and solace to those who are terminally ill or fear the death of their physical body for those who are suffering a difficult bereavement and for those who feel lost and confused about the meaning and purpose of life and what lies ahead of them *Whispers from the Veil* Pasquale De

difference in order of magnitude when comparing God's energy to ours. The behavior of this energy mirrors the equations brilliantly originated and described by Albert Einstein with two exceptions: the mass m referenced in Einstein's famous equation $E = mc^2$ is a special Mass M originating in God's energy particles and God's and our soul energy travels at one million times the speed of light c or 186 billion miles per second. In fact, this Mass is the source of the independent intelligence and sensory properties found in the soul of all human brains. Putting God Into Einstein's Equations: Energy of the Soul is a provocative and compelling book that weaves together empirical scientific observation, academic research, and theoretical and theological considerations bolstered by revelatory first-hand testimony bearing witness to the existence of the Divine soul in both the physical and spirit worlds. Contained in the pages of Putting God Into Einstein's Equations are moving personal reflections on the author's life experiences from the thrill of discovering one's true soul mate to both traumatic and joyous events like a descent into bipolar depression, Divine miracles, and the pain and loss associated with the death of a loved one. Equally explored and discussed are practical first-hand experiential techniques for hypnotic spiritual world regression and directing spiritual energy and using light to alleviate negative forces. Above all else, Putting God Into Einstein's Equations seeks to advance an awareness and comprehension of God drawing upon points of reference as diverse as Qigong and yoga to the word of rabbinical scholars.

The Bridge Between Two Lifetimes Marilyn Powers, Sherry Folb, 1999. As the 21st century dawns, one-third of our population, 80 million Baby Boomers born between 1946 and 1964, is at or near the age 50 milestone. One American now turns 50 every 11 seconds. This group wants more from the second half of their lives. They want to leave behind the predictable retirement paradigm of yesterday and cross the bridge to an entirely new outlook with a longer, more active life full of meaning and fulfillment. The Bridge Between Two Lifetimes gives readers the chance to do just that: to create a second curriculum that focuses on our mission and purpose, asks the ultimate questions about life and death, strives to make an evolutionary leap in consciousness, creates new soul groups that can actively align our individual intentions, and aspires to help us reshape the very future of Earth.
