Generative Intelligence and Intelligent Tutoring Systems Angelo Sifaleras, Fuhua Lin, 2024-05-31 This book constitutes the refereed proceedings of the 20th International Conference on Generative Intelligence and Intelligent Tutoring Systems ITS 2024 held in Thessaloniki Greece during June 10 13 2024 The 35 full papers and 28 short

papers included in this book were carefully reviewed and selected from 88 submissions. This book also contains 2 invited talks. They were organized in topical sections as follows: Generative Intelligence and Tutoring Systems, Generative Intelligence and Healthcare Informatics, Human Interaction, Games and Virtual Reality, Neural Networks and Data Mining, Generative Intelligence and Metaverse, Security, Privacy and Ethics in Generative Intelligence, and Generative Intelligence for Applied Natural Language Processing.

GenAI in Practice: Applications and Challenges Ashish Gore, 2025-07-26. GenAI in Practice: Applications and Challenges offers a comprehensive exploration of how Generative Artificial Intelligence is reshaping modern workflows, industries, and creative landscapes. It presents a wide spectrum of real-world applications, from automated content creation and personalized marketing to advanced medical diagnostics and scientific research, while critically examining the challenges that accompany these innovations. The book is structured to provide both breadth and depth. Early sections introduce foundational concepts, enabling readers to understand the underlying mechanisms of GenAI models, such as large language models, diffusion systems, and multimodal architectures. Subsequent chapters dive into sector-specific use cases, highlighting success stories alongside cautionary tales. Equally important is the discussion on challenges, including issues of data privacy, algorithmic bias, misinformation risks, ethical deployment, and regulatory needs. Each topic is supported by case studies and actionable insights, making the material relevant for both practitioners and policymakers. Rather than offering an overly technical or purely theoretical approach, the book maintains a practical orientation, focusing on strategies for safe, effective, and transparent adoption. By combining applications with critical analysis, it empowers readers to harness GenAI's benefits while navigating its complexities, ultimately promoting responsible and impactful use of this transformative technology.

Advanced Data Mining and Applications Masatoshi Yoshikawa, Xiaofeng Meng, Yang Cao, Chuan Xiao, Weitong Chen, Yanda Wang, 2025-11-19. This five-volume set constitutes the refereed proceedings of the 21st International Conference on Advanced Data Mining and Applications (ADMA 2025) held in Kyoto, Japan, during October 22-24, 2025.

Intelligent Systems and Applications Kohei Arai, 2021-08-06. This book presents the Proceedings of the 2021 Intelligent Systems Conference, which is a remarkable collection of chapters covering a wider range of topics in areas of intelligent systems and artificial intelligence and their applications to the real world. The conference attracted a total of 496 submissions from many academic, pioneering researchers, scientists, industrial engineers, and students from all around the world. These submissions underwent a double-blind peer review process. Of the total submissions, 180 submissions have been selected to be included in these proceedings. As we witness exponential growth of computational intelligence in several directions and use of intelligent systems in everyday applications, this book is an ideal resource for reporting latest innovations and the future of AI. The chapters include theory and application on all aspects of artificial intelligence, from classical to intelligent scope. We hope that readers find the book interesting and valuable; it provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research.

Spatial Artificial Intelligence Fivos Papadimitriou, 2025-02-08 This is the first book that focuses on the full range of spatial aspects of Artificial Intelligence Spatial AI is defined here as AI that is generated from spatial data or AI that is used for spatial analysis and spatial problem solving or AI that is embedded in spatial physical and or digital domains The reader is presented with a comprehensive exploration of the rise of Spatial AI in the last decades its applications in spatial analysis and its relationships with GeoAI Evolutionary AI and Spatial Computing With chapters addressing the spatial aspects of AI in the context of GenAI AR robotics digital twins etc it is a valuable resource for those who seek to explore the immense potential of Spatial AI its possible limitations in terms of energy and computability as well as its future prospects towards spatially enabled AGI and Artificial Super Intelligence

Chatgpt and Other Generative AI Tools Jochen Kuhn, Stefan Küchemann, Knut Neumann, Martina Rau, 2025-02-17 In the past ten years applications of generative artificial intelligence GAI have found rapidly growing use in medicine science and daily life Large language models LLMs opened up new avenues in particular for education LLMs have been used to create interactive educational content for students stimulate their curiosity generate code explanations and develop assessment questions Additionally LLMs been applied for language practice anxiety alleviation and feedback provision In higher education LLMs have shown potential for assisting in medical exam preparation and clinical decision making In school education LLMs can help teachers with automated evaluation of student responses and respective adaptive feedback More recently LLM based applications such as chatGPT have been used to generate teaching materials or assessment tasks across different subjects The fields understanding of the effects of the use of LLM based applications in classroom teaching however is still in its infancy GAI tools may help solving a range of tasks in education in particular with respect to teachers and students and teachers efforts to generate content However it is critical that teachers and students do not overly rely on GAI generated solutions but

instead critically assess each solution Students should furthermore not use GAI tools to avoid investing relevant mental effort to create mental models or more broadly build up competencies Philosophy of Artificial Intelligence Markus

Pantsar, Frederik Stjernfelt, Gabriele Gramelsberger, Alin Olteanu, 2025-12-02 This book discusses from various angles the new trends in Artificial intelligence AI given the current so called golden period that this field is undergoing Recent progress in machine learning applications such as image recognition and natural language processing have raised the level of optimism that one day an AI can exhibit genuine intelligence In games like Go and chess human players have been surpassed by computers As during earlier periods of AI optimism there is increasing talk about domain general artificial intelligence being possible But just how intelligent are current AI systems and what can we expect in the future What will a world with an increasingly important role for AI systems be like Which shifts with regard to the concept of intelligence as well as the societal order do these developments have Authors with different views on the present and future of AI research and the role of AI in society discuss these questions illustrating the diversity of discussions on AI and the many ways our lives are influenced by it Practical Digital Marketing and AI Psychology J. Engaging the Gadfly Casey T. Sigmon, 2025-06-09 In 2020 most preachers and congregations were forced into online and hybrid preaching We had to react quickly For some this adventure opened creative forms of preaching stitches duets reels and VR For others it was a season of just getting by cell phones propped up on books laptops on dining

room tables We did what we could to proclaim the good news in turbulent times Five years later Sigmon invites preachers and congregations to reflect on those experiences as they consider the future of preaching She helps the reader engage the Gadfly whose buzzing signals a shift in how we understand relationships truth presence and place in this digital age Sociologists and historians argue that we are now on the brink of a shift in communication as transformative as the invention of the printing press No wonder ministry is so challenging right now Ultimately this digital age like previous ages of technological change presents problems and possibilities to the practice of preaching and so ecclesiologically the shape of the church What shapes will emerge Sigmon will empower preachers and congregations to answer that question for themselves through a new media homilecclesiology The Feathered World ,1900 **Hackers New SAT Reading: 10 Practice Tests** Daniel Kim,2016-01-04
