Ai Tools Buy Online:

The Gig Economy Revolution: Rethinking Talent Management Dr. Aashish Dhiman, Dr. Pallavi Tyagi, Mr. Mukund Tyagi, Mr. Arpit Walia, 2025-04-25

Research Handbook on Intellectual Property and Artificial Intelligence Ryan Abbott, 2022-12-13 This incisive Handbook offers novel theoretical and doctrinal insights alongside practical guidance on some of the most challenging issues in the field of artificial intelligence and intellectual property. Featuring all original contributions from a diverse group of international thought leaders including top academics, judges, regulators, and eminent practitioners, it offers timely perspectives and research on the relationship of AI to copyright, trademark, design, patent, and trade secret law.

The Role of Artificial Intelligence Applications in Business Ra'ed Masa'deh, 2025-05-19 The Role of Artificial Intelligence Applications in Business examines key aspects of how digital technologies impact businesses, including AI-powered chatbots, self-service portals, and online customer support systems, which can help enhance the overall customer experience.

Information Systems and Technologies Alvaro Rocha, Hojjat Adeli, Gintautas Dzemyda, Fernando Moreira, 2022-05-10 This book covers the following main topics: A information and knowledge management, B organizational models and information systems, C software and systems modeling, D software systems architectures, applications, and tools, E multimedia systems and applications, F computer networks, mobility, and pervasive systems, G intelligent and decision support systems, H big data analytics and applications, I human computer interaction, J ethics, computers, and security, K health informatics, L information technologies in education, M information technologies in radio communications, N technologies for biomedical applications. This book is composed by a selection of articles from The 2022 World Conference on Information Systems and Technologies (WorldCIST 22) held between April 12 and 14 in Budva, Montenegro. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences, and challenges of modern information systems and technologies, research together with their technological development and applications.

Digitalization and Artificial Intelligence in Courts, 2025-09-25 In an era of rapid technological advancement, justice systems around the world stand at the threshold of a profound transformation. Digitalization and artificial intelligence offer unprecedented opportunities to enhance efficiency, broaden access to legal remedies, and bring courts closer to citizens. Yet as judicial processes become increasingly digitalized and automated, critical questions arise: how can we ensure transparency, fairness, and accountability in online dispute resolution (ODR) and AI-driven systems? What protections must be in place to preserve privacy, uphold fundamental rights, and ensure that technology serves rather than undermines the core principles of justice? Positioned at the intersection between technology and justice, *Digitalization and Artificial Intelligence in Courts: Opportunities and Challenges* explores these questions. The first part of the volume considers strategies for bridging the digital divide, explores the potential for process pluralism, outlines data protection requirements, and emphasizes the necessity of robust cybersecurity frameworks. It also tackles one of the most pressing concerns of the

digital era fostering trust and legal certainty in a virtual justice system The second part presents a comparative analysis of selected groundbreaking national and cross border court digitalization initiatives from England and the United States to China Pakistan and the European Union The final part examines the role of AI in courts offering a critical reflection on its promises and perils from algorithmic bias to the controversial concept of AI judges Through a rigorous and balanced analysis the authors map the opportunities and challenges of an increasingly digitalized legal landscape Essential for legal professionals policymakers and scholars Digitalization and Artificial Intelligence in Courts serves as a fundamental guide to navigating the future of justice systems and technology in the twenty first century Includes a foreword by Lord Briggs of Westbourne Justice of the Supreme Court of the United Kingdom

Marketing 2030 : The Future of Customer

Engagement Dr. Kiran Kumar,Mr. Chintamanigouda Patil,Dr. Ramesh Chandrahasa,2025-04-23 The world of marketing has undergone a profound transformation over the past few decades shaped by rapid technological advancements shifting consumer expectations and evolving economic landscapes As we look toward 2030 it becomes evident that the traditional approaches to marketing are no longer sufficient to meet the demands of an increasingly digital interconnected and sustainability focused world In this new era marketing is not merely about promoting products or services but about building authentic relationships delivering personalized experiences and addressing the broader societal and environmental concerns of consumers Businesses must navigate the delicate balance between leveraging cutting edge technologies such as artificial intelligence AI augmented reality AR and big data while maintaining trust transparency and ethical practices This chapter sets the stage for an exploration of marketing s evolution the key drivers shaping customer engagement in the future and the emerging trends and technologies poised to redefine how brands interact with their audiences By understanding these dynamics marketers can prepare to thrive in a landscape that is as challenging as it is full of opportunity
