Advances in Communications, Computing, Networks and Security Volume 8 Paul Dowland, Steven Furnell, 2012-06-14

This book is the eighth in a series presenting research papers arising from MSc MRes research projects undertaken by students of the School of Computing and Mathematics at Plymouth University. The publications in this volume are based upon research projects that were undertaken during the 2009/10 academic year. A total of 30 papers are presented covering many aspects of modern networking and communication technology including security, mobility, coding schemes and quality measurement. The expanded topic coverage compared to earlier volumes in this series reflects the broadening of our range of MSc programmes. Specifically contributing programmes are Communications Engineering and Signal Processing, Computer and Information Security, Computer Science, Network Systems Engineering, Robotics and Web Applications Development.
