Motor Trend ,1985-07 **Connected Histories** Eva Pfanzelter,Dirk Rupnow,Éva Kovács,Marianne Windsperger,2024-09-23 The World Wide Web WWW and digitisation have become important sites and tools for the history of the Holocaust and its commemoration Today some memory institutions use the Internet at a high professional level as a venue for self presentation and as a forum for the discussion of Holocaust related topics for potentially international transcultural and interdisciplinary user groups At the same time it is not always the established institutions that utilise the technical possibilities and potential of the Internet to the maximum Creative and sometimes controversial new forms of storytelling of the Holocaust or more traditional ways of remembering the genocide presented in a new way with digital media often come from people or groups who are not in the realm of influence of the large memorial sites museums and archives Such private stagings have experienced a particular upswing since the boom of social media This democratisation of Holocaust memory and history is crucial though it is as yet undecided how much it will ultimately reinforce old structures and cultural regional or other inequalities or reinvent them The Digital space as an arbitrary and limitless archive for the mediation of the Holocaust spanning from Russia to Brazil is at the centre of the essays collected in this volume This space is also considered as a forum for negotiation a meeting place and a battleground for generations and stories and as such offers the opportunity to reconsider the transgenerational transmission of trauma family histories and communication Here it becomes evident there are new societal intentions and decision making structures that exceed the capabilities of traditional mass media and thrive on the participation of a broad public

Four Battlegrounds Paul Scharre,2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of Burn In An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle

data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined
 Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals
 Talent is about people which country attracts the best researchers and most advanced technology companies The fourth
 battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into
 their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways
 AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than
 any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits
 China's National Team of leading AI companies to show the chilling synergy between China's government private sector and
 surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing
 deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions
 inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful
 technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security
 and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
