The Social Impact of Automating Translation Esther Monzó-Nebot,Vicenta Tasa-Fuster,2024-12-30 This collection critically examines the practical impacts of machine translation

MT through the lens of an ethics of care. It addresses the ideological issues in MT development linked to social hierarchies and explores the transformative potential of care ethics for more equitable technological progress. The volume explores the ideological constructs behind MT as a labor saving technology, how these constructs are embedded in both its development and social reception, and how they manifest in biased outputs. The chapters cover the cultural roots of translation automation, its legal and political implications, and the needs of various stakeholders. These stakeholders include lay users, Indigenous communities, institutions, educators, and professionals in an increasingly multicultural society. The book also addresses individuals who require translation daily with varying degrees of familiarity with their own translation needs and the tools available. Through critical engagement with the social impacts of MT, the book advocates for an epistemology of care to foster social equity and democratic values in technological progress. This book will interest scholars in translation studies, law, and sociotechnology, as well as practicing translators, policymakers, technologists, and activists seeking ethical and inclusive approaches to machine translation and technological development.

Organizing for Generative AI and the Productivity Revolution Arthur J. O'Connor, 2024-11-07

As leaders plan to make significant investments to harness the power of foundational models such as ChatGPT, they need to understand the changes in organizational behaviors required for the successful implementation of such systems. The size, complexity, and nature of this new wave of technologies requires a refresh in roles and responsibilities in conventional IT organizations. This book reveals practical and no-nonsense guidance on how to leverage generative AI to transform your business processes and organizational structures to achieve breakthroughs in efficiency, effectiveness, and competitive advantage. Written in a lively, engaging, and often humorous style, this work provides practical insights and timely survival skills for leaders with anonymous but real-world experiences and case studies. If you're looking to understand how large language foundation models such as ChatGPT are reshaping managerial roles and organizational structures, and how they can leverage this knowledge to survive and thrive in this brave new world, then *Organizing for Generative AI and the Productivity Revolution* is the book for you.

What You Will Learn

- Review the key changes in current state roles and responsibilities that are required to successfully deploy generative AI systems.
- Examine the organizational reporting structures and associated incentives that form a strong generative AI system.
- Understand the financial, regulatory, and operational risks created by organizational behavioral issues that arise when organizations build and deploy large language models.
- Compare the strategic differences in emerging versus traditional organizational behaviors, incentives, roles, and responsibilities.

Who This Book Is For

Executives and team leaders at enterprises large and small. The book addresses an important topic: how to set up an organization for success, particularly in Generative AI. Generative AI brings new challenges to organizations in terms of how to structure the organization for success, mitigating risks, software development lifecycle, and tracking ROI. I could think of no better person to tackle these issues than Arthur O'Connor, who has extensive experience in technology within some of the largest enterprises in Wall Street, complemented by his academic

background He brings an insightful and unique perspective for technology leaders who want to set up their organizations for success in Generative AI Joseph Sabelja Generative AI Firmwide Platform Lead J P Morgan
