

MIDDLE CLASS SCHOLARSHIP UPDATE

The Middle Class Scholarship will be delayed!

We want to provide an update regarding the Spring 2025 Middle Class Scholarship (MCS). We anticipated disbursing the spring portion of this award this month. However, **the California Student Aid Commission (CSAC) has requested all statewide MCS disbursements be delayed until further notice. CSAC is currently working to resolve an issue and will notify campuses when MCS disbursements can resume, as well as any changes to the MCS award.** This should not impact the disbursement of your other financial aid for the spring term.

We understand that this delay may cause an inconvenience. Rest assured; we are working closely with CSAC to determine the final MCS spring term award amount and will keep you informed of any developments.

UPDATE: We have received the “green light” and should be disbursing the spring portion of the Middle Class Scholarship by the end of this week!

African American Student's Guide to College Success F. Erik Brooks, Glenn L. Starks, 2015-10-21 This encouraging guide coaches African American and first generation college students on strategies for maximizing their experiences and success on university campuses. Marked gaps in academic achievements continue to exist between white and black students on college campuses in America. This motivational book with contributions from academic role models from within the African American community provides tools to help ethnically diverse students choose the best college, improve their study skills and cope with academic anxiety. From college selection to graduation, this practical resource provides firsthand accounts of successful college experiences and the strategies used by former students to obtain their degrees. This work is divided into four parts. After an introductory section that addresses how to find the right college for aspiring students, the second part discusses the culture of an academic environment and reveals what incoming students may discover on a new campus. The third section introduces the language and lingo used in college settings. Finally, the guide concludes with conversations with successful African Americans who have achieved their undergraduate, graduate, and professional degrees. The content also features a helpful college and university directory.

Burden or Benefit: External Data Reporting Kristina Powers, Angela E. Henderson, 2016-01-20 Blazing new trails in the area of reporting and transparency. Required and voluntary reporting of student data to external agencies has increased in volume, quantity, and complexity, and understanding the scope of reporting requirements and the associated burden is critical to higher education practitioners. This volume focuses on new directions in institutional reporting and the associated burden. The convergence of increased reporting coupled with the demand to be more efficient with resources in a saturated and competitive higher education market make this a timely and needed volume for higher education administrators. This is the 166th volume of this Jossey-Bass quarterly report series. Timely and comprehensive. *New Directions for Institutional Research* provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

Big Data on Campus Karen L. Webber, Henry Y. Zheng, 2020-11-03 How data-informed decision making can make colleges and universities more effective institutions. The continuing importance of data analytics is not lost on higher education leaders who face a multitude of challenges, including increasing operating costs, dwindling state support, limits to tuition increases, and increased competition from the for-profit sector. To navigate these challenges, savvy leaders must leverage data to make sound decisions. In *Big Data on Campus*, leading data analytics experts and higher ed leaders show the role that analytics can play in the better administration of colleges and universities. Aimed at senior administrative leaders, practitioners of institutional research, technology professionals, and graduate students in higher education, the book opens with a conceptual discussion of the roles that data analytics can play in higher education administration. Subsequent chapters address recent developments in technology, the rapid accumulation of data assets, organizational maturity in building

analytical capabilities and methodological advancements in developing predictive and prescriptive analytics Each chapter includes a literature review of the research and application of analytics developments in their respective functional areas a discussion of industry trends examples of the application of data analytics in their decision process and other related issues that readers may wish to consider in their own organizational environment to find opportunities for building robust data analytics capabilities Using a series of focused discussions and case studies Big Data on Campus helps readers understand how analytics can support major organizational functions in higher education including admission decisions retention and enrollment management student life and engagement academic and career advising student learning and assessment and academic program planning The final section of the book addresses major issues and human factors involved in using analytics to support decision making the ethical cultural and managerial implications of its use the role of university leaders in promoting analytics in decision making and the need for a strong campus community to embrace the analytics revolution Contributors Rana Glasgal J Michael Gower Tom Gutman Brian P Hinote Braden J Hosch Aditya Johri Christine M Keller Carrie Klein Jaime Lester Carrie Hancock Marcinkevage Gail B Marsh Susan M Menditto Jillian N Morn Valentina Nestor Cathy O Bryan Huzefa Rangwala Timothy Renick Charles Tegen Rachit Thariani Chris Tompkins Lindsay K Wayt Karen L Webber Henry Y Zheng Ying Zhou

You've Been Played Adrian Hon, 2022-09-20 How games are being harnessed as instruments of exploitation and what we can do about it Warehouse workers pack boxes while a virtual dragon races across their screen If they beat their colleagues they get an award If not they can be fired Uber presents exhausted drivers with challenges to keep them driving China scores its citizens so they behave well and games with in app purchases use achievements to empty your wallet Points badges and leaderboards are creeping into every aspect of modern life In You've Been Played game designer Adrian Hon delivers a blistering takedown of how corporations schools and governments use games and gamification as tools for profit and coercion These are games that we often have no choice but to play where losing has heavy penalties You've Been Played is a scathing indictment of a tech driven world that wants to convince us that misery is fun and a call to arms for anyone who hopes to preserve their dignity and autonomy

Virtual Influencers Esperanza Miyake, 2024-08-01 This book identifies the converging socio cultural economic and technological conditions that have shaped informed and realised the identity of the contemporary virtual influencer situating them at the intersection of social media consumer culture Artificial Intelligence AI and digital technologies Through a critical analysis of virtual influencers and related media practices and discourses in an international context each chapter investigates different themes relating to digitality and identity virtual place and nationhood virtual emotions and intimacy im materialities of virtual everyday life the biopolitics of virtual human production the necropolitics of pandemic virtuality transmedial and mimetic virtualities and the political economy of virtual influencers The book argues that the virtual influencer represents the various ways in which contemporary identities have increasingly become naturalised with questions of virtuality mediated by digital

technologies across multiple realities From practices relating to AI driven invasive data profiling needed for virtual influencer production to problematic online practices such as buying digital skin colour the author examines how the virtual influencer s aesthetic social and economic value obfuscates some of the darker aspects of their role as an extractivist technology of virtuality one which regulates oppresses and or classifies bodies and datafied bodies that serve the visual bio political and digital economies of virtual capitalism In the process the book simultaneously offers a critique of the virtual influencer as a representational figure existing across multiple digital platforms spaces and times and of how they may challenge complicate and reinforce normative ideologies surrounding gender race class sexuality age and ableism As such the book sheds light on some of the more troubling realities of the virtual influencer s existence inasmuch as it celebrates their transformational potential exploring the implications of both within an increasingly AI driven digital culture society and economy Drawing from a wide range of disciplines this book will appeal to scholars researchers and students working in the area s of Popular Culture and Media Internet Digital and Social Media Studies Data justice and Governance Japanese Media Studies Celebrity Studies Fan Studies Marketing and Consumer Studies Sociology Human Computer Studies and AI and Technology Studies
