

The History of Gaming

Gaming

Early video games were single player games using a cathode ray tube. They were only found in research labs and universities. Things changed in the 1970s when games such as Pong were made and got people interested in gaming at home. Having fun became one of the most popular activities in the world.

1970s

In 1971, the first home gaming console was released, called the Magnavox Odyssey. It wasn't very good but it was a starting point for consoles such as the Atari 2600, which was released in 1977. This was the first console where you could change game cartridges. It was a huge success and the beginning of home gaming.

1980s

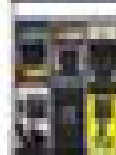

During the 1980s, people started to purchase home computers. They became a big thing in the home. This was the time of games such as the Atari 2600 and home computers, which were single and fun in that young and old could enjoy playing them.

Some of the most famous consoles and games were released in the 1980s. Nintendo brought out the Super Nintendo Entertainment System, known as SNES, which was a huge hit. It followed on from the successful Sega console. These consoles introduced players to games such as Super Mario World and Sonic the Hedgehog.

In the late 1980s, gaming consoles brought 3D with consoles such as the PlayStation and Nintendo 64.

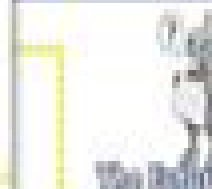

Graphics became 3D in the 1990s.

Personal Day

Games that you can create yourself. You have it and then create after playing it. Some examples are using software with actual games, creating a story, and then creating a game and then that game comes to life.

It was the start of a new era. People were more creative. This would transform the way people played, allowing players to create their own games. It was a big step when games were moving to the home. Images of games from the player's point of view provided a unique and new experience.
