Painting With Children:

Painting for Children Lois Thomasson Horne, 1968 *Drawing and Painting* John Matthews, 2003-03-19 This book is a tremendous resource for any early years setting It enables us and encourages us to explore the process of artistic development through a fresh and inclusive lens Nursery World This book is a welcome update of an informative text describing the process of children s mark making as a visual physical and interactive process urging us to consider how we as adults perceive and support young children s mark making activities both at home and school John Matthews demonstrates the cognitive function of this early mark making in relation to general individual development Early Years A thought provoking and informative book this is essential reading for anyone involved in the education of young children Times Educational Supplement Teacher Drawing and Painting is a fascinating and delightful read for tutors practitioners and students and is highly recommended an essential text for early years courses at level 3 and above Under Five This book has been revised to reflect recent developments in early childhood education in developmental psychology and in our understanding of children s development in the arts The author shows how this new model of children s development in visual representation has important implications for education The author examines children s development in visual expression and suggests how this development might be supported The book takes issue with the inherited wisdom about children s development in visual representation The traditional approach describes children s development in terms of supposed deficits in which children progress from primitive earlier stages to superior ones until the defects in their representational thinking are overcome and they arrive at an endpoint of visual realism This approach is the pervasive influence on curricular planning in arts education and in early years education The author explains recent different models of development in visual expression Instead of measuring children s efforts against an adult paradigm the new models identify the modes of representation used by children as consequences of children s own intentions motivations and priorities The writing is accessible and assumes no specialist knowledge of psychological theory art its history or interpretation This book is essential reading for early childhood educators at nursery and pre school level for other professionals who work with very young children and parents as well as students and tutors on early years courses This is a revised edition of *Helping Children to Draw and Paint Children and Visual Representation* originally published in 1994 **The Village Children, an Introduction to the Art of Painting Children and Their Stories** Marie Dubois, 2009 The book is both a children s story book and a craft book and is in two parts The story book section contains short and longer stories for young children to read printed in both English and French The craft section is an introduction to painting for the aspiring young artists Part One includes full colour illustrations of plates originally painted by hand on porcelain china and canvas by Marie Dubois On the opposite page the author has written stories both in English and French based on the theme of each plate The stories have been translated to French to familiarise young children to a foreign language especially now learning a second language has

been added to the school curriculum Part Two is an introduction to the art of painting The book gives brief instructions as to the materials required basic techniques and painting principles that beginners will need to create some fine artistic tableau as well as definitions of various brush strokes for beginners to practice so that they can achieve their own fine art work The Book also includes line work for each plate design which can be traced on to any painting material It is hoped that the artwork contained in this volume will inspire other painters to produce similar pieces of work The designs require a great deal of careful creative attention All drawings and colours on the designs have a distinctive style particularly the characteristic figures old fashion costumes and hats The book is not only for children to read or parents to read to their children but is also for painters art teachers and others who might be interested in creating this fine art and will have reason to feel proud of their own achievements
