Pakistan's Blasphemy Laws SHEMEEM BURNEY ABBAS, 2013-07-01 Under the guise of Islamic law the prophet Muhammad's Islam and the Qur'an states such as Pakistan Afghanistan Egypt Saudi Arabia and Bangladesh are using blasphemy laws to suppress freedom of speech Yet the Prophet never tried or executed anyone for blasphemy nor does the Qur'an authorize the practice Asserting that blasphemy laws are neither Islamic nor Qur'anic SHEMEEM BURNEY ABBAS traces the evolution of these laws from the Islamic empires that followed the death of the Prophet Muhammad to the present day Taliban Her pathfinding study on the shari'a and gender demonstrates that Pakistan's blasphemy laws are the inventions of a military state that manipulates discourse in the name of Islam to exclude minorities women free thinkers and even children from the rights of citizenship Abbas herself was persecuted under Pakistan's blasphemy laws so she writes from both personal experience and years of scholarly study Her analysis exposes the questionable motives behind Pakistan's blasphemy laws which were resurrected during General Zia ul Haq's regime of 1977-1988 motives that encompassed gaining geopolitical control of the region including Afghanistan in order to weaken the Soviet Union Abbas argues that these laws created a state sponsored infidel ideology that now affects global security as militant groups such as the Taliban justify violence against all infidels who do not subscribe to their interpretation of Islam She builds a strong case for the suspension of Pakistan's blasphemy laws and for a return to the Prophet's peaceful vision of social justice

Partition's First Generation AMBER H. ABBAS, 2020-11-26 The Mohammadan Anglo Oriental College MAO that became the Aligarh Muslim University AMU in 1920 drew the Muslim elite into its orbit and

was a key site of a distinctively Muslim nationalism Located in New Delhi the historic centre of Muslim rule it was home to many leading intellectuals and reformers in the years leading up to Indian independence During partition it was a hub of pro Pakistan activism The graduates who came of age during the anti colonial struggle in India settled throughout the subcontinent after the Partition They carried with them the particular experiences values and histories that had defined their lives as Aligarh students in a self consciously Muslim environment surrounded by a non Muslim majority This new archive of oral history narratives from seventy former AMU students reveals histories of partition as yet unheard In contrast to existing studies these stories lead across the boundaries of India Pakistan and Bangladesh Partition in AMU is not defined by international borders and migrations but by alienation from the safety of familiar places The book reframes Partition to draw attention to the ways individuals experienced ongoing changes associated with partitioning the process through which familiar spaces and places became strange and sometimes threatening and they highlight specific never before studied sites of disturbance distant from the borders

The Rise of Critical Islam Youcef L. Soufi, 2023 In a richly narrated historical study Youcef Soufi excavates an Islamic legal culture of critique from the 10th to 13th centuries Focusing on the practice of *mun ara* disputation Soufi explores how and why oral debates became a pervasive and revered part of the intellectual legal landscape of Iraq and Persia Using the life and career of celebrated Iraqi jurist Ab Is q al Sh r z he traces the formalization of debate gatherings at the dawn of the classical legal schools *al madh hib* in the early 10th century and analyzes the wider institutional social and discursive conditions that made debate an important feature of any jurist's practice Pushing back against claims that classical Muslim jurists sought to weed out differences of opinion The Rise of Critical Islam presents a community committed to the openness fluidity and continued exploration of the law Challenging the view of debate gatherings simply as mechanisms of doctrinal resolution before codification the study reveals a classical culture where critical debates were part of a continual and personal quest to discover God's law In uncovering this classical legal culture Soufi invites readers to question claims about the promise of secular critique in disciplining religious passions and forging human solidarity

Law,

Religion and Tradition Jessica Giles, Andrea Pin, Frank S. Ravitch, 2018-09-27 This book explores different theories of law religion and tradition from both a secular and a religious perspective It reflects on how tradition and change can affect religious and secular legal reasoning identifying the patterns of legal evolution within religious and secular traditions It is often taken for granted that even in law change corresponds and correlates to progress that things ought to be changed and they will necessarily get better There is no doubt that legal changes over the centuries have made it possible to enhance the protection of individual rights and to somewhat contain the possibility of tyranny and despotism But progress is not everything in law stability and certainty lie at the core of the rule of law Similarly religions and religious laws could not survive without traditions and yet they still evolve and their evolution is often intermingled with secular law The book asks and in some ways answers the questions What is the role of tradition within religions and religious laws What is the impact of religious traditions on secular laws and vice versa How are the elements of tradition to be identified Are they the same within the secular and the religious realm Do secular law and religious law follow comparable patterns of change Do their levels of resilience differ significantly How does the history of religion and law affect changes within religious traditions and legal systems The overall focus of the book addresses the extent to which tradition plays a role in shaping and re shaping secular and religious laws as well as their mutual boundaries

India and South Asia James H. K. Norton, 1999 **Myth of Islamic Tolerance** Robert Spencer, 2005-01-31 This title examines the juridical and cultural oppression of non Muslims in Islamic societies Genocide in the Middle East Hannibal Travis, 2010 Genocide in the Middle East describes the genocide of the Armenians Greeks and Assyrians of the Ottoman Empire in the nineteenth and early twentieth centuries of the Kurds and other persons living under Saddam Hussein in northern Iraq in the late 1980s and of the Dinka Nuba Fur Masalit and Zaghawa peoples of Sudan from the 1970s to the present It situates these crimes in their historical context as outgrowths of intolerant religious traditions imperialism and the rise of the nation state Cold War insurgencies and counterinsurgencies and the global competition for resources and markets at the expense of indigenous peoples This requires a more thorough investigation of the case law on genocide than has been attempted in the literature on genocide to date including detailed accounts of the prosecutions of the leaders of the Ottoman Empire after World War I of Saddam Hussein and other Iraqi officials after Operation Iraqi Freedom and of President Omar Hassan al Bashir and other leaders of Sudan by the International Criminal Court Finally the book

explores emerging problems of genocidal terrorism cultural genocide and structural genocide due to starvation disease and displacement The field of genocide studies has grown rapidly in recent years fueled by interest in the Armenian genocide the wars in the former Yugoslavia and Iraq and the widespread massacres in southern Sudan and Darfur While several comparative studies of the Armenian genocide the Holocaust and other genocides have been published none of them focuses on genocide in the Middle East and North Africa since the nineteenth century This book provides a comprehensive history of genocide in the broader Islamic world with a particular focus on the twentieth century It is of interest to general readers undergraduates graduate students academics journalists and legal professionals and will be useful as a text for courses on International Law International Criminal Law Law and Religion Middle East Studies International Relations Public Policy Criminal Justice or World History The comprehensive research is breath takingly evident This historical account of the lesser know genocidal conflicts is incredibly revealing Perhaps the best thing one could say about this book is that the familiar adage Those who ignore history are bound to repeat it reverberates throughout this intensely engaging volume ASIL UN21 Newsletter This ambitious book in its research and coverage tells a sorry tale of mankind s inhumanity and intolerance over millennia of genocidal deeds and rhetoric A fast moving narrative reaches from biblical times to Darfur describing tragic events accompanied by selective quotations from their participants and observers Genocide may be a recently invented term but its occurrences based on a variety of causes and reasons seem to have been a deep part of the human experience of group interactions Henry Steiner Professor of Law Emeritus Harvard Law School and co author International Human Rights in Context Law Politics Morals Oxford and New York Oxford University Press 3d ed 2007 In Genocide in the Middle East Hannibal Travis breaks new ground in genocide studies by unveiling the full panoply of genocidal processes in the Middle East and West Asia as no previous scholar has But he does much more in terms of its twentieth and twenty first century coverage this is simply the most expansive detailed and up to date history of genocide we possess Adam Jones Associate Professor Political Science University of British Columbia Okanagan and author of Genocide A Comprehensive Introduction London Routledge 2006 Professor Travis study of genocide and the contribution he makes for a better understanding of the Assyrian one is an invaluable event This is not a book of sociology but of historical review and analysis As such it deserves the highest of accolades Journal of Assyrian Academic Studies [Prospect](#) ,2010 [The Middle East, Abstracts and Index](#) ,2002

Islamic Law and the Law of Armed Conflict Niaz A Shah,2011-03-03 Islamic Law and the Law of Armed Conflict The Conflict in Pakistan demonstrates how international law can be applied in Muslim states in a way that is compatible with Islamic law Within this broader framework of compatible application Niaz A Shah argues that the Islamic law of qital i e armed conflict and the law of armed conflict are compatible with each other and that the former can complement the latter at national and regional levels Shah identifies grey areas in the Islamic law of qital and argues for their expansion and clarification Shah also calls for new rules to be developed to cover what he calls the blind spots in the

Islamic law of qital He shows how Islamic law and the law of armed conflict could contribute to each other in certain areas such as the law of occupation air and naval warfare and the use of modern weaponry Such a contribution is neither prohibited by Islamic law nor by international law Shah applies the Islamic law of qital and the law of armed conflict to a live armed conflict in Pakistan and argues that all parties the Taliban the security forces of Pakistan and the American CIA have violated one or more of the applicable laws He maintains that whilst militancy is a genuine problem fighting militants does not allow or condone violation of the law Islamic Law and the Law of Armed Conflict will be of interest to students and scholars of international law Islamic law international relations security studies and south east Asian studies Freedom of Expression in Islam ,2021 In Muslim countries apostasy and blasphemy laws are defended on the grounds that they are based on Islamic Shari'a and intended to protect religion But blasphemy and apostasy laws can be used both to suppress thought and debate and to harass religious minorities both inside and outside Islam This book comprising contributions from Muslim scholars experts and activists critically and constructively engages with the theological historical and legal reasoning behind the most restrictive state laws around the world to open up new ways of thinking The book focuses on the struggle within Muslim societies in Iran Egypt Pakistan and Indonesia where blasphemy and apostasy laws serve powerful groups to silence dissent and stifle critical thought The first part of the book covers the development of the law in shifting historical circumstances and surveys the interpretations of Qur'anic verses that seem to affirm freedom of religion The second part examines the present politics and practices of prosecuting alleged blasphemers and or apostates in Muslim countries The third part looks to the future and where reforms of the law could be possible Debates on Islam and freedom of expression are often cast in polarizing terms of rights versus religion East versus West This volume avoids such approaches by bringing together a diverse group of Muslim scholars and activists with the knowledge commitment and courage to contest repressive interpretations of religion and provide a resource for reclaiming the human rights to freedom of expression and belief
