

PALLIATIVE CARE'S PLACE IN THE CARE CONTINUUM

When a person is diagnosed with a serious illness or condition, it's common for patients to follow a standardized process for symptom relief. However, every patient's plan of care is unique, so it's important to discuss the best course of treatment with your medical provider.

From the Foreword The aging population has only grown since the first edition of this comprehensive and seminal publication nearly 20 years ago Based on the need to humanize rather than medicalize the illness experience for patients this text delves into palliative care beyond the specific diseases affecting the patient Instead content focuses on the whole person and family Palliative patients struggle with chronic debilitating and painful conditions and grapple with the fact that life as they knew it has already passed away Families and friends reciprocally suffer not knowing how to help and therefore become the secondary victims of the disease This is not the challenge of a lone nurse or a single physician therapist or social worker Rather palliative and hospice care requires the expertise and unique roles of an interprofessional team to help the patient and family strengthen their resilience continue to find meaning and purpose in life and cure what can be cured Palliative Care Nursing Fifth Edition delivers advanced empirical aesthetic ethical and personal knowledge This new edition brings an increased focus on outcomes benchmarking progress and goals of care It expounds upon the importance of the cross disciplinary collaboration introduced in the previous edition Every chapter in Sections I II and III includes content written by a non nursing member of the interprofessional team Based on best evidence and clinical practice guidelines this text presents comprehensive targeted interventions responsive to the needs of palliative and hospice patients and family Each chapter contains compassionate timely appropriate and cost effective care for diverse populations across the illness trajectory Key Features The expanded new edition offers current comprehensive one stop source of highly relevant clinical information on palliative care Life span approach age appropriate nursing considerations e g geriatric pediatric and family Includes disease specific and symptom specific nursing management chapters Promotes a holistic and interdisciplinary approach to palliative care Offers important legal ethical and cultural considerations related to death and dying Case Studies with Case Study Conclusion in each clinical chapter New to The Fifth Edition An expanded chapter on Palliative Care incorporates most up to date scope and standards information on Basic and Advanced HPNA certification self reflection and self care for nurses A chapter on Interprofessional Collaboration Instructor Resources Power points and Test bank
