Unsettled Issues Regarding First- and Last-mile Transport Jody Emlyn Muelaner, 2021-10-15 Sustainable first last only mile FLO mile transport is the key to sustainable travel It could directly replace private car use for short urban journeys which account for 1% of global greenhouse gas emissions More importantly it could enable public transport to be used for longer journeys which account for 6% of emissions Active travel such as walking and cycling has the lowest emissions and provides huge economic benefits that pay for the required infrastructure many times over

Unsettled Issues Regarding First and Last Mile Transport discusses the mass switch to more sustainable modes of transport and how to increase their perceived value to users It also covers the prioritization of publicly owned cycles over rideshare options due to the latter s higher lifecycle emissions including manufacture redistribution and service operations and station construction Click here to access the full SAE EDGETM Research Report portfolio <https://doi.org/10.4271/EPR2021024>
