Painting Psychoanalysis And Spirituality Contemporary Artists And Their Critics:

Painting, Psychoanalysis, and Spirituality Stephen James Newton, 2001-01-29 Painting Psychoanalysis and Spirituality examines the spiritual and transcendental dimension of painting Using psychoanalytical ideas the author demonstrates the developmental processes that are the inner core of the creative process Newton shows how painting can psychologically transform the artist or viewer through engagement with the spiritual dimension of the art work through analyses of works of contemporary artists such as Roger Hilton Willem de Kooning and Georg Baselitz along with those of icon painters Fra Angelico Leonardo Nicholas Poussin and Caravaggio among others *The Hidden Essence of Art* Stephen Newton, 2025-08-26 This book offers a wide ranging review of art throughout the ages to isolate the original source of religions and religious practices within the symbiotic relationship between art production and universal ritual procedures A psychoanalytic perspective identifies the creative process as the common factor and integral structure of not only the formation of the art object but also ritual enactments and performance and furthermore religious doctrine and ceremony The ritual creative process is unearthed as the unique prototype for the fundamental concept of death and resurrection that underpins religious belief The book was written with the general reader in mind but it will also be of interest to psychoanalytic researchers art historians and art practitioners as well as to theologians Art Journal ,1960 **On the Strange Place of Religion in Contemporary Art** James Elkins, 2004 Can contemporary art say anything about spirituality John Updike calls modern art a religion assembled from the fragments of our daily life but does that mean that contemporary art is spiritual What might it mean to say that the art you make expresses your spiritual belief On the Strange Place of Religion in Contemporary Art explores the curious disconnection between spirituality and current art This book will enable you to walk into a museum and talk about the spirituality that is or is not visible in the art you see *Religion and Contemporary Art* Ronald R. Bernier, Rachel Hostetter Smith, 2023-05-11 Religion and Contemporary Art sets the theoretical frameworks and interpretive strategies for exploring the re emergence of religion in the making exhibiting and discussion of contemporary art Featuring essays from both established and emerging scholars critics and artists the book reflects on what might be termed an accord between contemporary art and religion It explores the common strategies contemporary artists employ in the interface between religion and contemporary art practice It also includes case studies to provide more in depth treatments of specific artists grappling with themes such as ritual abstraction mythology the body popular culture science liturgy and social justice among other themes It is a must read resource for working artists critics and scholars in this field and an invitation to new voices curious about its promises and possibilities *Aesthetics and the Iconoclasm of Contemporary Art* Žarko Paić, 2021-08-25 The main themes and aims of this book are understanding aesthetics contemporary art and the end of the avant garde not from the traditional viewpoint of the metaphysics of the beautiful and the sublime but rather thru close connection to the techno genesis of virtual worlds This book tackles problems in contemporary art theory such as the body in

space and time of digital technologies along with other issues in visual studies and image science Further intentions exhibit the fundamental reasons for the disappearance of the picture in the era of virtual reality starting from the notion of contemporary art as realized iconoclasm art has no world for its image The author argues that the iconoclasm of contemporary art has severe consequences This text appeals to philosophers of art and those interested in contemporary art theory **Bibliographic Guide to Art and Architecture** New York Public Library. Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk,1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture The Journal of Aesthetics and Art Criticism ,1958 **The Art of the Critic:**
