Consumer Psychology in a Social Media World Claudiu V. Dimofte, Curtis P. Haugtvedt, Richard F. Yalch, 2015-09-16 *Consumer Psychology in a Social Media World* seeks to illustrate the relevance of consumer psychology

theory and research to understanding the social media world that has rapidly become a key component in the social and economic lives of most individuals. Despite the rapid and widespread adoption of social media by consumers, research focused on individuals' use thereof and its implications for organizations and society has been limited and published in scattered outlets. This has made it difficult for those trying to get either a quick introduction or an in-depth understanding of the associated issues to locate relevant scientific-based information. The book is organized into five broad sections. The first presents a summary overview of social media including a historical and cultural perspective. The second section is focused on social media as a modern form of word of mouth, always considered the most impactful on consumers. It also touches upon a motivational explanation for why social media has such a strong and broad appeal. Section three addresses the impact that consumers switch to social media as a preferred channel has had on marketers' branding and promotional efforts, as well as the ways in which consumer involvement can be maintained through this process. Section four takes a methodological perspective on the topic of social media, assessing ways in which big data and consumer research are influenced by novel ways of gathering consumer feedback and gauging consumer sentiment. Finally, section five looks at some consumer welfare and public policy implications, including privacy and disadvantaged consumer concerns.

Consumer Psychology in a Social Media World will appeal to those who are involved in creating, managing and evaluating products used in social media communications. As seen in recent financial and business market successes, e.g. Facebook, Twitter, LinkedIn, Instagram, Pinterest, WhatsApp, etc., businesses focused on facilitating social media are part of the fastest growing and most valuable sector of today's economy.

Why We Can't Have Nice Things Minh-Ha T. Pham,2022-08-08 In 2016 social media users in Thailand called out the Paris based luxury fashion house Balenciaga for copying the popular Thai rainbow bag using Balenciaga s hashtags to circulate memes revealing the source of the bags design In *Why We Can t Have Nice Things* Minh Ha T Pham examines the way social media users monitor the fashion market for the appearance of knockoff fashion design theft and plagiarism

Tracing the history of fashion antipiracy efforts back to the 1930s she foregrounds the work of policing that has been tacitly outsourced to social media Despite the social media concern for ethical fashion and consumption and the good intentions behind design policing Pham shows that it has ironically deepened forms of social and market inequality as it relies on and reinforces racist and colonial norms and ideas about what constitutes copying and what counts as creativity These struggles over ethical fashion and intellectual property Pham demonstrates constitute deeper struggles over the colonial legacies of cultural property in digital and global economies
