## Reddit This Week:

*You Should Quit Reddit* Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit s r NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple *You Should Quit Reddit* is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit s flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

[New Power](#) Jeremy Heimans, Henry Timms, 2018-04-03  
From two influential and visionary thinkers comes a big idea that is changing the way movements catch fire and ideas spread in our highly connected world  
For the vast majority of human history power has been held by the few  
Old power is closed inaccessible and leader driven  
Once gained it is jealously guarded and the powerful spend it carefully like currency  
But the technological revolution of the past two decades has made possible a new form of power one that operates differently like a current  
New power is made by many it is open participatory often leaderless and peer driven  
Like water or electricity it is most forceful when it surges  
The goal with new power is not to hoard it but to channel it  
New power is behind the rise of participatory communities like Facebook and YouTube sharing services like Uber and Airbnb and rapid fire social movements like Brexit and BlackLivesMatter  
It explains the unlikely success of Barack Obama's 2008 campaign and the unlikelier victory of Donald Trump in 2016  
And it gives ISIS its power to propagate its brand and distribute its violence  
Even old power institutions like the Papacy NASA and LEGO have tapped into the strength of the crowd to stage improbable reinventions  
In New Power the business leaders social visionaries Jeremy Heimans and Henry Timms provide the tools for using new power to successfully spread an idea or lead a movement in the twenty first century  
Drawing on examples from business politics and social justice they explain the new world we live in a world where connectivity has made change shocking and swift and a world in which everyone expects to participate
