Astrophysics Abstracts aims to present a comprehensive documentation of the literature concerning all aspects of astronomy, astrophysics and their border fields. It is devoted to the recording, summarizing and indexing of the relevant publications throughout the world. Astronomy and Astrophysics Abstracts is prepared by a special department of the Astronomisches Rechen Institut under the auspices of the International Astronomical Union. Volume 40 records literature published in 1985 and received before February 15, 1986. Some older documents which we received late and which are not surveyed in earlier volumes are included too. We acknowledge with thanks contributions of our colleagues all over the world. We also express our gratitude to all organizations, observatories and publishers which provide us with complimentary copies of their publications. Starting with Volume 33, all the recording, correction and data processing work was done by means of computers. The recording was done by our technical staff members: Ms Helga Ballmann, Ms Mona El Chourati, Ms Monika Kohl, Ms Sylvia Matyssek, Ms Karirr Burkhardt, Ms Susanne Schlotzberg, Mr Martin Schlotzberg and Mr Stefan Wagner supported our task by careful proof reading. It is a pleasure to thank them all for their encouragement.
