Teaching Resistant Learners in Post-School Education Merv Lebor,2022-08-08 This book explores various frameworks within which post school education is situated and the practice that actually happens in classrooms and lecture theatres especially when things go wrong Examining how and why some students choose to resist learning whilst undertaking tertiary education this book provides practical tips and guidance for educators on how to work through difficult situations where learning isn t a student s priority Considering both theory and practice the book offers a range of practical solutions to difficult circumstances such as the greater emphasis on

distance learning the growth of predatory or fake journals to the challenges of too much screen time ghostwriters and plagiarism speaking out of turn consistent lateness absenteeism and even violent behaviour Looking at contexts and behaviours where learning is rejected or ignored through students indifference or resistance from a range of perspectives this book is ideal reading for anyone working or involved in tertiary education including teacher trainees tutors teacher educators managers administrators and lecturers working at universities and colleges as well as students who may benefit from discussions of the problematic nature of learning **It's About Damn Time** Arlan Hamilton, Rachel L.

Nelson, 2022-02-15 A hero's tale of what's possible when we unlock our potential continue the search for knowledge and draw on our lived experiences to guide us through the darkest moments Stacey Abrams From a Black gay woman who broke into the boys club of Silicon Valley comes an empowering guide to finding your voice working your way into any room you want to be in and achieving your own dreams NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FORTUNE In 2015 Arlan Hamilton was on food stamps and sleeping on the floor of the San Francisco airport with nothing but an old laptop and a dream of breaking into the venture capital business She couldn't understand why people starting companies all looked the same White and male and she wanted the chance to invest in the ideas and people who didn't conform to this image of how a founder is supposed to look Hamilton had no contacts or network in Silicon Valley no background in finance not even a college degree What she did have was fierce determination and the will to succeed As much as we wish it weren't so we still live in a world where being underrepresented often means being underestimated But as someone who makes her living investing in high potential founders who also happen to be female LGBTQ or people of color Hamilton understands that being undervalued simply means that a big upside exists Because even if you have to work twice as hard to get to the starting line she says once you are on a level playing field you will sprint ahead Despite what society would have you believe Hamilton argues a privileged background an influential network and a fancy college degree are not prerequisites for success Here she shares the hard won wisdom she's picked up on her remarkable journey from food stamp recipient to venture capitalist with lessons like The Best Music Comes from the Worst Breakups Let Someone Shorter Stand in Front of You The Dangers of Hustle Porn and Don't Let Anyone Drink Your Diet Coke Along the way she inspires us all to defy other people's expectations and to become the role models we've been looking for Praise for It's About Damn Time Reading Arlan Hamilton's It's About Damn Time is like having a conversation with that frank bawdy friend who somehow always manages to make you laugh get a little emo and ultimately think about the world in a different way The book is warm witty and unflinching in its critique of the fake meritocracy that permeates Silicon Valley Shondaland [Choose Your Own Master Class](#) Beth Pandolpho, Katie Cubano, 2023-07-25 Designed for busy educators this resource offers exciting ideas spanning a wide range of disciplines and examines their implications for teaching and learning Use this guidebook to create an education master class that suits your needs interests and schedule Explore the perspectives and research fields alone or with your collaborative team members to
