Casebook of Chinese Business Management Mingyue Fan, Limin Wang, Dragana Ostic, 2022-05-03 This book selects Chinese excellent enterprise management cases integrating into the education system of business schools sharing China's new story to readers and boosting the process of national economic construction and enterprise transformation. Chinese enterprises face unprecedented opportunities and challenges under the circumstance of fast changing technology, economy and political environment. In the face of various uncertainties, they have risen to prominence and constantly summed up enterprise management concepts and practical experience suitable for their own development to reshape their competitive advantages and enhance their market value. Based on the investigation, this book covers the major theoretical aspects of management principles such as planning, organizing, leading, controlling, and innovation. The 17 selected cases from manufacturing, retailing, technology, big data, service, agriculture, and other industries cover strategic management, entrepreneurial management, human-oriented management, information management, and organizational innovation management. We hope that readers can get some valuable practical experience and enlightenment from the practices in these fields. The book also includes two case study guides which guide readers to form a case study's thinking. It also encourages readers to broaden their learning ideas on management.

Multidisciplinary Approaches to Ethics in the Digital Era Taskiran, Meliha Nurdan, Pinarbaşı, Fatih, 2021-03-18 The digital era has redefined our understanding of ethics as a multidisciplinary phenomenon. The newness of the internet means it is still highly unregulated, which allows for rampant problems encountered by countless internet users. In order to establish a framework to protect digital citizenship, an academic understanding of online ethics is required. *Multidisciplinary Approaches to Ethics in the Digital Era* examines the concept of ethics in the digital environment through the framework of digitalization. Covering a broad range of topics including ethics in art, organizational ethics, and civil engineering ethics, this book is ideally designed for media professionals, sociologists, programmers, policymakers, government officials, academicians, researchers, and students.
