**New Log On To Computers** □ 6 Manjeet Jauhar , Meera Aggarwal, New Log On To Computers Revised series consists of eight thoroughly revised and updated textbooks for classes 1-8. The books aim to help learners master the use of various types of software and IT tools. The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners. Driving Digital Transformation through Data and AI Alexander Borek, Nadine Prill, 2020-11-03. Leading tech companies such as Netflix, Amazon, and Uber use data science and machine learning at scale in their core business processes, whereas most traditional companies struggle to expand their machine learning projects beyond a small pilot scope. This book enables organizations to truly embrace the benefits of digital transformation by anchoring data and AI products at the core of their business. It provides executives with the essential tools and concepts to establish a data and AI portfolio strategy as well as the organizational setup and agile processes that are required to deliver machine learning products at scale. Key consideration is given to advancing the data architecture and governance, balancing stakeholder needs, and breaking organizational silos through new ways of working. Each chapter includes templates, common pitfalls, and global case studies covering industries such as insurance, fashion, consumer goods, finance, manufacturing, and automotive. Covering a holistic perspective on strategy, technology, product, and company culture, Driving Digital Transformation through Data and AI guides the organizational transformation required to get ahead in the age of AI.

**Applications of Mathematics in Science and Technology** Bui Thanh Hung, M. Sekar, Ayhan ESI, R. Senthil Kumar, 2025-04-29. The conference dealt with one of the most important problems faced in international development in pure mathematics and applied mathematics: development in engineering such as cryptography, cyber security, network operations research, heat equation, and so forth. The aim of the conference was to provide a platform for researchers, engineers, academicians, as well as industrial professionals to present their research results and development activities in pure and applied mathematics and its applied technology. It provided opportunities for the delegates to exchange new ideas and application experiences to establish business or research relations and to find global partners for future collaboration.

**The Complete Guide to Using Google in Libraries** Carol Smallwood, 2015-02-26. Carol Smallwood's The Complete Guide to Using Google in Libraries Volume 1: Instruction, Administration, and Staff Productivity explores how Google's suite of tools from Google Docs, now Google Drive, Google Scholar, Hangout, Forms, and others made freely available to the Internet Community can be used by libraries to expand the role of digital operations in the management of library materials, to communicate with their patrons and collaborators, to exploit the resources on the Web, and many others. The book has 29 chapters organized into sections that focus on ways that Google's suite of tools can be applied to address problems in a specific area of library concern. The section headings are Library Instruction for Users, Collaboration within and among libraries, Library Administration, Collection Management, and Library Productivity. In each topical area, the chapters show how librarians are taking advantage of these

tools to change the way that their library works All of this without the burden of an additional bill to pay Through these carefully selected case studies from real libraries you will be able to learn about the surprising and powerful potential that exists through Google tools to improve library operations      *UGC NET PAPER 1 MCQ* NARAYAN CHANGDER,2015-12-05
