evolution and is essential reading for anyone interested in the machinations of starting a successful business from the ground up and staying there I didn't realise my life had been hijacked until a year after it happened That's Mandy Johnson's take on her introduction into the world of Flight Centre Limited the travel company that divides its workforce into prehistoric families villages and tribes and rewards them with autonomy and incentives From its origins in 1973 as a UK tour company with a single bus called Bollocks FCL revolutionised the travel industry and morphed into a global giant It faced challenges including the War on Terror and SARS that wreaked havoc on business It battled the encroachment of the internet a disastrous internal restructure and a US acquisition that delivered a profit wipe out just months before the global financial crisis And yet each time FCL has come back stronger than before almost doubling in size every five years relying on its Stone Age tribal structure as its platform for success Its founders were two 23 year old veterinarians from Queensland Australia Neither had any business experience and the idea for the company was hatched while celebrating in a Munich beer hall So how did they make it work Mandy Johnson and Katrina Beikoff have enjoyed full access to all the major players in FCL to bring us the full story in this updated edition
